T AND OTHER CATASTROPHES

The Surprising Science of Sex and Society

Cordelia Fine

(W. W. Norton, 2015)

Evolutionary Psychology has long held that "our modern skulls house a Stone Age mind". In **T AND OTHER CATASTROPHES**, Cordelia Fine shows that in fact we have evolved to be adaptive to local social conditions – to be 'wired for culture' – giving us the incredible capacity for behavioral diversity and flexibility in order to flourish in a bewildering variety of social and physical settings.

Recent studies have shown that the functional and even structural organization of the human brain is a continuous and dynamic process that continues throughout life. An increasingly large body of research has demonstrated the power of an individual's behavior, the behavior of others, and the social environment to influence brain and behavior by changing the endocrine system itself. As a result, **hormones like testosterone – once thought of as the biological essence of a universal and timeless masculinity – have instead come to be seen as absolutely key in enabling behavior to change in response to the environment, both in the short- and long-term.**

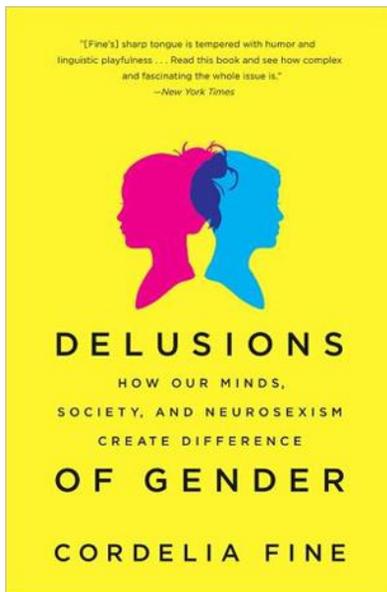

T AND OTHER CATASTROPHES applies the new scientific understandings of the brain, hormones and evolution to the gender debate, and shows how viewing the topic through the lens of contemporary scientific models transforms us, and erodes the false boundary between 'nature' and 'nurture'.

PRAISE FOR A MIND OF ITS OWN:

"An unsettlingly entertaining tour. ... An edifying exploration, wryly and ruefully expressed." – *Booklist*

"Excellent ... Fine's very engaging and chatty style ... will delight many readers ... Fine has got it just right. Although she is an academic, she writes like a human being ... All in all this short and enjoyable book is a must for anyone who wants to get a better understanding of what their brain gets up to when they aren't watching it. First class."

DELUSIONS OF GENDER: How Our Minds, Society and Neurosexism Create Difference

Cordelia Fine
(Norton)

DELUSIONS OF GENDER is a "fabulous combination of wit, passion and scholarship...This marvelous and important book will change the way readers view the gendered world" (**starred Publisher's Weekly**), "an admirably fluent review of a gazillion brain-science studies" (**ELLE**), and "Like Robert Wright (*The Moral Animal*), Fine's greatest strength is her accessible voice and clear structure" (**Kirkus**).

"...it's not too late to read this book and see how complex and fascinating the whole issue is. It's really not just a few steps from looking longer at moving objects to aptitude in math, from gazing at faces to mind reading."

- **New York Times**

"Whether or not you believed in hard-wired gender differences before reading the book, it would be difficult to complete it without feeling at least a healthy skepticism about the role of biology in the way our lives play out. ...A forceful, funny new book."

- **Boston Globe**

"So you thought sexism was a thing of the past? A growing number believe there's an 'immutable' biological difference between the male and female brain. But brain differences are no explanations for why so few women are engineers and so few men go into nursing. Packed with rich, scientific detail, Fine's argument is solid."

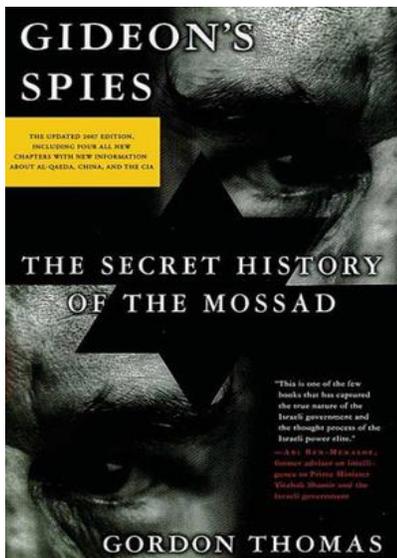

- **Newsweek**

"I am so glad that someone has tackled all the new reports of hard-wired sex differences that continue to come out."

- Professor **Anne Fausto-Sterling**, author of *Myths of Gender*

"...passionate, insightful and funny...gender identity is all in the mind, not the brain; in the software, not the hardware..."
Globe & Mail

"Fine debunks the myth that men's and women's brains are hardwired differently."

GIDEON'S SPIES

The Secret History of the Mossad – 7th Edition

Gordon Thomas

(St. Martin's Press / March 2015)

Gideon's Spies continues to gather new sales records. **Now in its seventh English-language edition**, it has been published in multiple languages around the world. Accolade Films of London has acquired the motion picture rights.

Revised and updated for 2015, the new edition of this classic includes:

- Mossad's secret meeting in 2013 with Saudi Arabia's intelligence chief to plan for Israel to use Saudi to attack Iran should the Geneva discussion fail to be honored by Iran.
- The attack on Iraq's nuclear reactor that will be the flight path to an attack on Iran's nuclear facilities.
- Mossad's new cyber-war unit preparing to launch its own pre-emptive strike.
- Why Mossad's former director, Meir Dagan, has spoken out against an attack on Iran.
- Mossad agents who operate in the "Dark Side" of the internet to track terrorists.
- Mossad's role in the defense of Israel's Embassy in Cairo during the Arab Spring.
- An introduction to Mossad's new director, Tamir Pardo.

These and other stunning details combine to give *Gideon's Spies* the sense of urgency and relevance that is characteristic of truly engrossing nonfiction.

11 Laws That Will Change Your Life

Tony Horton
(HarperCollins, February 2014)

Workout master Tony Horton wasn't always the inspiring and energetic expert responsible for fitness phenomenon, **P90X**. Tony faced his own challenges growing up, from being bullied and struggling in school, to grappling with unhealthy habits and a lack of personal and professional direction. Choosing to get fit helped Tony to land on his feet—but that was only half the battle. Tony learned that true happiness can't be gained from muscle mass or the number of reps you can do; true happiness grows from the inside out.

Now, in his first book that looks beyond the scope of daily workouts, Tony shares his philosophy for living a better life. His 11 Laws provide a clear path to achieving your goals and getting physically, mentally, and emotionally fit. Becoming a happy, productive, and satisfied person is simple through Tony's advice, examples, and personal stories.

**Publisher controls UK,
translation and audio rights.**

Fitness is the foundation of Tony's Laws, but you'll find that the *principles* of fitness can be applied to all areas of life. Qualities of consistency, intensity, flexibility, and recovery, just a few of Tony's Laws, are as important outside the gym as they are inside it. You can use these laws to get fit *and* to become a happier, more successful person—you won't have to choose one over the other.

"Working out with Tony Horton is great fun. You never know what's coming at you next, and your brain and body are being challenged in such a satisfying way that suddenly the session is over and you can't wait for the next one. The results are fast, and you become happier, healthier, and more energetic."

- Ewan McGregor, actor

"Doc Horton. He's the Master. There's a P90X army out there--it's athletic and more explosive than any other, and he's leading it".

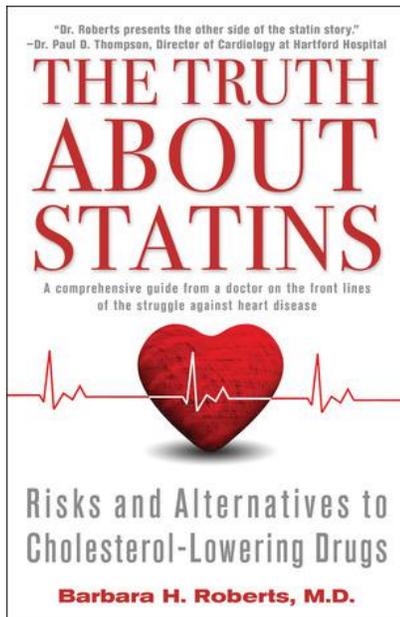

- Mike Golic, *ESPN Radio's Mike & Mike in the Morning*

"Let Tony guide you to the best physical shape of your life. He did it for me with P90X. Decide, commit, use Tony."

THE TRUTH ABOUT STATINS: Risks and Alternatives to Cholesterol-Lowering Drugs

Barbara H. Roberts, M.D.
(Gallery Books [Simon & Schuster])

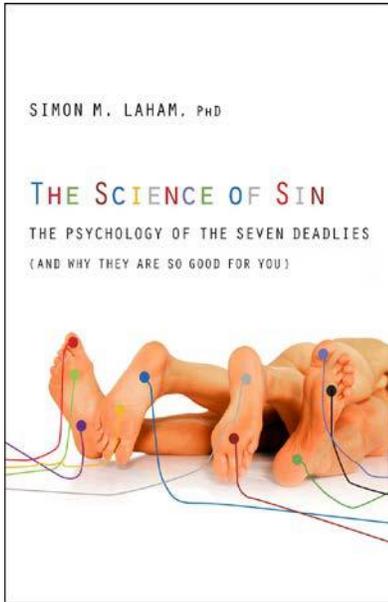

Statins are some of the most commonly prescribed drugs worldwide. But are they really a miracle cure for high cholesterol and its attendant heart disease? Dr. Barbara H. Roberts, director of the Women's Cardiac Center at the Miriam Hospital in Rhode Island, doesn't think so.

THE TRUTH ABOUT STATINS discusses both the benefits and health risks of these popular drugs. This comprehensive guide finally reveals the questionable science behind the research studies.

Offering clear-cut, easy-to-understand information in an easily accessible fashion, Dr. Roberts explains how to take the best possible care of the heart, including:

- * The keys to maintaining cardiovascular well-being
- * How to interpret cholesterol numbers
- * The frightening adverse effects of popular drugs
- * Recipes for a delicious and heart-healthy diet.

Barbara H. Roberts, M.D., is Director of The Women's Cardiac Center at the Miriam Hospital in Providence, Rhode Island. She is also an Associate Clinical Professor of Medicine at the Alpert Medical School of Brown University. She spent two years at the National Heart, Lung and Blood Institute of the National Institutes of Health (NIH) where she was involved in the first clinical trial that demonstrated a beneficial effect of lowering cholesterol on the incidence of heart disease. She is currently a principal investigator in another NIH-sponsored trial of cholesterol-lowering therapy.

The Science of Sin: The Psychology of the Seven Deadly Sins (And Why They Are So Good for You)

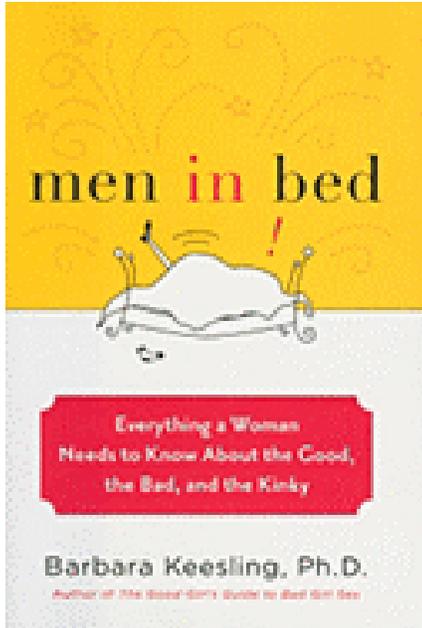

Simon Laham
(Three Rivers Press [Crown])

Award-winning social psychologist Simon Laham uses Modern psychological science and historical anecdotes to contend that the “seven deadly sins” not only feel good, but are good for you. From gluttony to greed, to envy and lust, even the deadliest of sins can make you smart, successful and happy. Based on many studies, Dr. Laham eloquently tells us why the greedy are happy, the slothful are smart, gluttons are social butterflies and how anger can make you a fearsome negotiator.

Laham has published numerous peer reviewed scholarly articles on the psychology of morality and emotion, which have appeared in leading journals. He is coeditor of *Social Motivation: Conscious and Unconscious Processes*, published by Cambridge University Press.

“Social psychologist Laham suggests the seven deadly sins can have positive value [and] opposes the “simplistic labeling” of [sins] as “uniformly wrong” [in this] lighthearted foray into motivational research”

AGING AS A SPIRITUAL PRACTICE: A Contemplative Guide to Growing Older and Wiser

Lewis Richmond
(Gotham [Penguin])

AGING AS A SPIRITUAL PRACTICE offers a new perspective on aging, one which will help readers with the challenges and realities of aging through spiritual teachings and practices, and highlight the gifts and transformative possibilities aging has in store for us all.

The author's published books include *Work As A Spiritual Practice* (Broadway), *Healing Lazarus* (Atria/Pocket), and *A Whole Life's Work* (Atria/Pocket). Articles have appeared in such magazines as *Tricycle*, *The Buddhistharma*, *Turning Wheel*, and *Shambhala Sun*. Lewis Richmond trained at S.F. Zen Center and taught religious studies at Green Gulch Zen Temple, as well as being a corporate executive. Richmond founded the Vimala Sangha, a meditation community in Mill Valley, California, and in 2007 he co-founded the Shogaku Zen Institute, a Zen Priest training seminary. He leads an increasingly busy teaching schedule of retreats and workshops on the subject of aging spiritually, as well as online activities, which makes for a steadily expanding public profile.

THE ZEN OF RECOVERY

Mel Ash

Open Road Media (ebook)

Audible (audio)

Mel Ash shows how Zen mind and practice connect to the heart of recovery. Courageously drawing from his lifetime of experience as an abused child, alcoholic, Zen student, and dharma teacher, Ash presents a practical synthesis of AA's Twelve Steps and Zen's Eightfold Path.

You don't have to be Buddhist to appreciate the healing power of THE ZEN OF RECOVERY, which has sold over **75,000 copies** in the US. The book makes Zen available to all seeking to improve the quality of their spiritual and everyday life. It also includes practical instructions on how to meditate and put the book into action. Its message will help readers live more profoundly "one day at a time."

Praise for THE ZEN OF RECOVERY:

"The effectiveness of the Twelve Step program is well established, but its power is vastly enhanced when the systematic techniques of Eastern meditation are incorporated into the Eleventh Step. THE ZEN OF RECOVERY represents a pioneering effort in addressing this important issue."

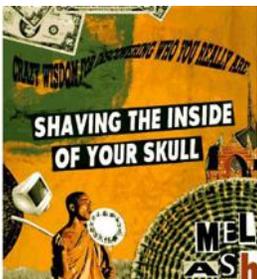

- Shinzen Young, Senior Teacher,
Vipassana Support Institute, Los Angeles

"This most exciting book brings together the wisdom of Zen with the spirituality of recovery. It speaks to the problems of life in an exciting, dynamic, and practical approach—a must-read."

- Father Leo Booth, Author of *When God Becomes A Drug*

The spectacular story of the world's greatest natural disaster ever to strike the western hemisphere: the 1902 volcano that destroyed St Pierre on the island of Martinique. This book reveals the story of a city engulfed in flames and plunged into terrifying darkness.

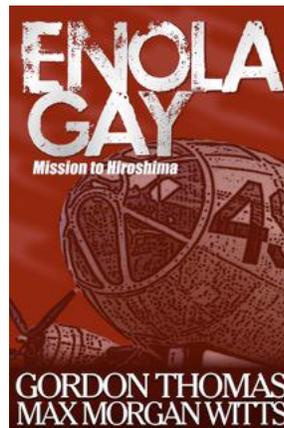

(Audio Book by Audible)

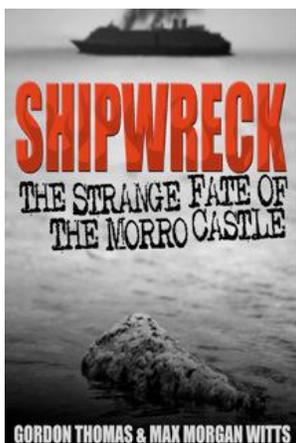

In May 1939, the SS St. Louis set sail from Hamburg, allegedly providing asylum to 937 German Jews, but the voyage was, unbeknownst to the captain and passengers, in fact a Nazi trap. Described by the New York Times as "an extraordinary human document and suspense story," this is the gripping, illustrated account of the refugees' struggle to survive.

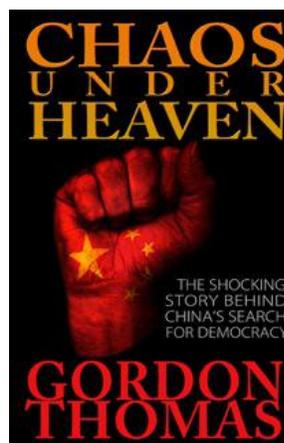

This is the story of the San Francisco earthquake of 1906. It contains never before published documents of the insurance companies, the military and the Red Cross to tear away the myths and expose the real villains and heroes.

The most important event of World War Two. The bombing of Hiroshima is told for the first time from first-hand sources. Myth and reality are finally separated from the planning of the mission to that moment over Hiroshima when the atomic age was born.

A spellbinding moment-by-moment account of one of the most spectacular disasters off the coast of New York which killed more than 130 people. Answers the question which until now has remained unanswered: was it a terrible accident – or arson?

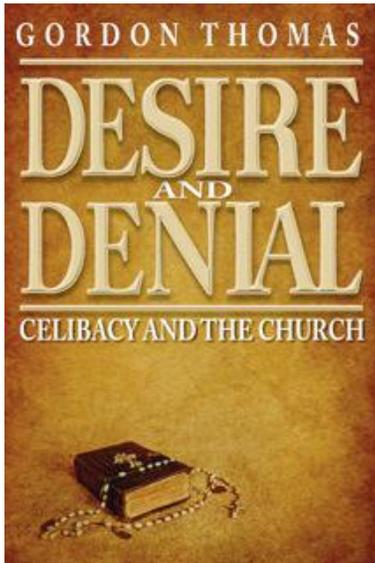

The first complete book on the Tiananmen Square tragedy to date. Reveals how diplomats from the United States, Britain and Europe knew exact details of the impending massacre of the students in Tiananmen. A vivid narrative window into secret meetings in the Oval Office, CIA headquarter and the private compound of China's leaders. Over 100 interviewees contribute to an untold story.

Carol Botwin

Open Road Media (ebook)

Audible (audio)

Carol Botwin was an author and social critic whose lively and exhaustive writings on sex and infidelity made her one of the leading sexologists of her generation. Known for her no-nonsense advice and compassionate irreverence, Ms. Botwin manages to transcend gender and age in her writing. Her most popular books have been translated into more than a dozen languages, including German, Spanish, Dutch, Italian, French, Portuguese, Greek, Polish, Russian, Chinese, and Japanese.

The Love Crisis is a field guide to the contemporary male, and the precursor to such 1990s best sellers as "Men Are From Mars, Women Are From Venus." Written with wit and expertise, *The Love Crisis* categorizes men according to how they behave in relationships and describes the psychodynamics of typical lovers and husbands today.

In **Tempted Women**, Botwin tackles a topic still taboo to many: female infidelity. Basing her observations primarily on 250 responses to a survey she conducted, Botwin defines types of relationships examines the situations and psychological factors that prompt women to affairs and suggests factors that predict whether a woman will cheat.

Is There Sex After Marriage is the answer for the millions of Americans trapped in the cycle of low- or no-sex marriages. Contrary to the widespread cultural acceptance, sex doesn't have to end once the honeymoon does. Botwin brings her decades of relationship experience to bear and teaches couples how to rekindle the fire they had in their courtship, and how to keep it burning forever.
