THE GROWNUP: A Story

Gillian Flynn

November 2015

Rights: World

Gillian Flynn's Edgar Award-winning homage to the classic ghost story, published for the first time as a standalone.

A canny young woman is struggling to survive by perpetrating various levels of mostly harmless fraud. On a rainy April morning, she is reading auras at Spiritual Palms when Susan Burke walks in. A keen observer of human behavior, our unnamed narrator immediately diagnoses beautiful, rich Susan as an unhappy woman eager to give her lovely life a drama injection. However, when the psychic visits the eerie Victorian home that has been the source of Susan's terror and grief, she realizes she may not have to pretend to believe in ghosts anymore. Miles, Susan's teenage stepson, doesn't help matters with his disturbing manner and grisly imagination. The three are soon locked in a chilling battle to discover where the evil truly lurks and what, if anything, can be done to escape it.

"The Grownup," which originally appeared as "What Do You Do?" in George R. R. Martin's *Rogues* anthology, proves once again that Gillian Flynn is one of the world's most original and skilled voices in fiction.

JUNE

Miranda Beverly-Whittemore

June 2016

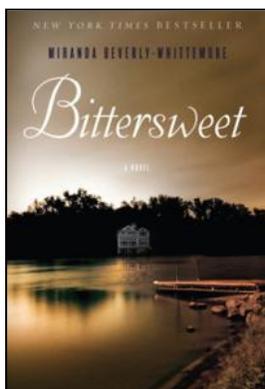

Rights: World

From the *New York Times* bestselling author of BITTERSWEET, a new upmarket suspense novel that examines the seduction of money, the battle between right and wrong, and our universal, desperate wish to know and understand the mysteries of our families.

When Cassie Danvers gets a visit explaining that she's the sole heir to legendary Hollywood movie star Jack Montgomery's fortune, she is stunned. He's named her as his granddaughter and cut his two famous daughters out of the will. Cassie doubts she is Montgomery's descendant; her prim and proper Grandmother June, dead half a year, certainly never mentioned him. But Cassie finds out that Jack Montgomery filmed a movie in June's hometown of St. Jude, Ohio in the summer of 1955, which means Jack could have fathered Cassie's dad, even though June was engaged at the time. Meanwhile, the family home in St. Jude where Cassie now lives (and where June lived all those years ago) seems to come alive every time Jack and June's names are mentioned in the same breath—is it just Cassie's imagination? As Cassie comes to discover, June had good reasons to keep her secrets about Jack and all that happened the summer he came to film in St. Jude, secrets involving blackmail, murder, betrayal and broken hearts.

A suspenseful and atmospheric summer novel, drawing on BITTERSWEET's theme of an outsider who must come to grips with the secrets and lies of a prestigious family's legacy, JUNE tells the story of two young women, united across sixty years, confronting similar, but extraordinary circumstances.

Miranda Beverly-Whittemore is the author of three novels, including *The Effects of Light and Set Me Free*, which won the Janet Heidinger Kafka Prize for the best book of fiction by an American woman published in 2007. A recipient of the Crazyhorse fiction prize, she lives and writes in Brooklyn and Vermont.

THE NEVER-OPEN DESERT DINER: A Novel

James Anderson

March 2016

Rights: World

"High, dry and severely beautiful...a wondrously strange novel."--Marilyn Stasio, *New York Times Book Review*

"Anderson's first novel is a great one... You have not read a book like *The Never-Open Desert Diner* in a long time, if ever. Once you open its pages you will know you are in for something surprisingly enjoyable."---
The Huffington Post

A haunting, funny, and masterfully written debut novel, about a remote region of the Utah desert where people go to escape their past, and a truck driver who finds himself at risk when he falls in love with a mysterious woman.

Ben Jones lives a life of quiet and relative solitude, working as a trucker in one of the most beautiful and desolate areas of the Utah desert, which has become a haven for fugitives and others looking to hide from the world. But when he meets Claire, a mysterious woman he finds playing a cello in an abandoned housing development, he is drawn into a love affair that has serious and life-threatening consequences not only for them both, but for others who have made this desert their sanctuary. Ultimately their passion reignites a decades-old tragedy at a roadside café referred to by the locals as The Never-Open Desert Diner. In this unforgettable story of love and loss, Ben must learn the enduring truth that some violent crimes renew themselves across generations. *The Never-Open Desert Diner* is a unique blend of literary mystery and noir fiction that powerfully evokes an unforgettable setting and introduces readers to a cast of characters who will linger long after the last page.

JAMES ANDERSON was born in Seattle, Washington and grew up in the Pacific Northwest. He is a graduate of Reed College, and received his MFA in creative writing from Pine Manor College. His short fiction, poetry, essays, and reviews have appeared in many magazines, including *The Bloomsbury Review*, *New Letters*, *Solstice Magazine*, *Northwest Review*, *Southern Humanities Review* and others, and he previously served as the publisher and editor-in-chief of Breitenbush Books. *The Never-Open Desert Diner* is his first novel.

I ALMOST FORGOT ABOUT YOU

Terry McMillan

June 2016

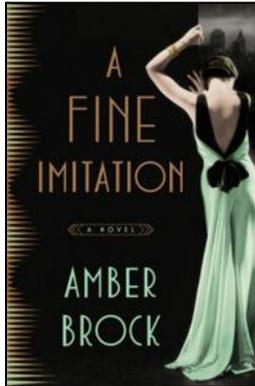

Rights: World

In *I ALMOST FORGOT ABOUT YOU*, Dr. Georgia Young's wonderful life-great friends, family, and successful career- aren't enough to keep her from feeling stuck and restless. When she decides to make some major changes in her life, she finds herself on a wild journey that may or may not include a second chance at love.

Like *Waiting to Exhale* and *How Stella Got Her Groove Back*, *I ALMOST FORGOT ABOUT YOU* will show legions of readers what can happen when you face your fears, take a chance, and open yourself up to the world.

"It's another dull Friday night. I'm lying in bed, alone, of course, propped up by a sea of pillows, still in work clothes and my lab coat because after a grueling day of back-to-back patients I'm almost comatose which is why I'm channel surfing while I wait for my pizza to be delivered. I stop when I come to my favorite standby: Law & Order: Criminal Intent, even though I've seen almost all of them -- including the reruns. Sometimes I still watch the first five or ten minutes, just long enough to see Detective Goren walk around the crime scene, looking for clues before he begins to study the victim by circling them in his long trench coat until he stops, tilts his head to the side, puts on those rubber gloves and then rubs the new growth on that beautiful square chin, because he's just trying to make sense of it all. And it's at that moment, before he utters a word that I usually pucker up, blow him a kiss and then change the channel. Like I'm doing now. I've been in love with him and his shoulders long before my first marriage ended. I would've killed to have sex with him but he went off the air. And were he to walk in here right now, I'd let him do almost anything he wanted to do to me. That is so not true. It's been centuries since I've had sex so I'm not sure I'd even remember what to do first. In fact, I think I'd be too uncomfortable not to mention scared of getting all touchy feely with any man and far too embarrassed at the mere thought of him seeing me naked. Hell, I sleep with the remote."

Terry McMillan is the #1 *New York Times* bestselling author of *Waiting to Exhale*, *A Day Late and a Dollar Short*, and *The Interruption of Everything* and the editor of *Breaking Ice: An Anthology of Contemporary African-American Fiction*.

A FINE IMITATION

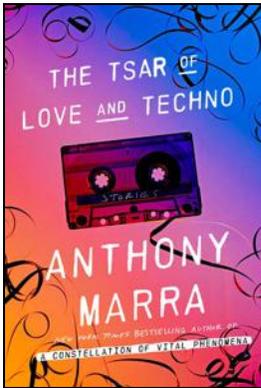

Amber Brock
May 2016
Rights: World English
Agency: Janklow & Nesbit

Set in the glamorous 1920s, *A FINE IMITATION* is an intoxicating debut that sweeps readers into a privileged Manhattan socialite's restless life and the affair with a mysterious painter that upends her world, flashing back to her years Vassar and the friendship that brought her to the brink of ruin.

Vera Bellington has the beauty, the pedigree and a penthouse at The Angelus-- the most coveted address on Park Avenue. But behind the sparkling social whirl, Vera is living a life of quiet desperation. Her days are an unbroken loop of empty, champagne-soaked socializing, while her nights are silent and cold, spent waiting alone in her cavernous apartment for a husband who seldom comes home.

Then Emil Hallan arrives at The Angelus to paint a mural above its glittering subterranean pool. The handsome French artist moves into the building, shrouds his work in secrecy, and piques Vera's curiosity, especially when the painter keeps dodging questions about his past. Is he the man he claims to be? Even as she finds herself increasingly drawn to Hallan's warmth and passion, Vera can't suppress her suspicions. After all, she has plenty of secrets, too -- and some of them involve art forgers like her bold, artistically talented former friend, Bea, who years ago, at Vassar, brought Vera to the brink of catastrophe and social exile.

When the dangerous mysteries of Emil's past are revealed, Vera faces an impossible choice -- whether to cling to her familiar world of privilege and propriety, or to risk her future with the enigmatic man who has taken her heart. *A FINE IMITATION* explores what happens when we realize that the life we've always led is not the life we want to have.

HUNTERS IN THE DARK

Lawrence Osborne
January 2016
Rights: World

“A modern Graham Greene... Osborne is a thrilling, exceptional talent .” —*Sunday Times* (UK)

The new novel from Lawrence Osborne, critically acclaimed author of *The Forgiven* and *The Ballad of a Small Player*

When Robert Grieves crosses the Thai-Cambodia border, he is simply a lone, aimless traveler: a British English teacher in his early thirties, abroad on holiday with no particular destination in mind. But when he unexpectedly wins money at the gambling table, his fate becomes intertwined with the lives of a cast of others: people who are strangers to him now but whose choices will affect his future in surprising--and often dangerous--ways. Simon Beaucamp, a dashing expat American, asks Robert to join him at his lavish riverside home and introduces him to Sothea, his beautiful and reserved Khmer girlfriend, and although Simon's motives are unclear, Robert can't help but be taken in by the American's elegance and generosity.

What follows is a sophisticated game of cat and mouse, where identities are blurred, greed trumps kindness, and karma is ruthless. Filled with Hitchcockian twists and turns, suffused with the steamy heat and pervasive superstition of the Cambodian jungle, and unafraid to confront uneasy questions about luck and the machinations of fate, HUNTERS IN THE DARK is a masterful novel that feels like an instant classic.

THE TUNNELS

JFK, CBS & NBC at the Berlin Wall

Greg Mitchell

September 2016

Rights: World

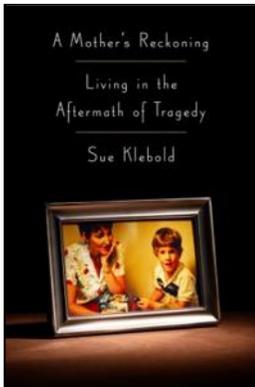

On their backs with loud machines, then, as they neared the border, only picks and shovels, a band of young West Germans gouged their way beneath the Berlin Wall in 1962. The team, risking arrest or death, had arranged for a group of East German loved ones to meet them in the basement of a tenement on the East side to spirit the group under the wall to freedom.

The symbolic drama of East German attempts to leap, climb, or scrape their way West made for gripping television, and no one knew that better than the Berlin correspondents of the two major networks and their bosses, Piers Anderton and Reuven Frank at NBC, and CBS's Daniel Schorr and Blair Clark. Unbeknownst to each other, NBC and CBS, hearing rumors of tunnelers around Berlin, abetted and funded separate tunnel attempts and vied to be the first to air a triumphant documentary of the human will to be free from Communism. Anxiously looking over the shoulders of them all, with more than a trace of political hypocrisy, John F. Kennedy, his brother Robert, and Secretary of State Dean Rusk, exerted all the influence they could to put an end to these endeavors. If the programs were broadcast, the administration might be perceived by Khrushchev as using its propaganda outlets to condone perforating the border.

Greg Mitchell, relying on documents declassified in the last 12 months, winds this tense story with excitement and panache in **THE TUNNELS: JFK, CBS & NBC at the Berlin Wall**, Le Carré meets *Argo* in a non-fiction Cold War nail-biter. Using brand new source material, Mitchell revisits this magnetic time in history that continues to beckon readers.

A MOTHER'S RECKONING: Living in the Aftermath of Tragedy

Sue Klebold

Introduction by Andrew Solomon

February 2016

Rights: World

In **A MOTHER'S RECKONING**, Sue Klebold, for the first time, recounts , based on her recollections, her daily journals, and the difficult and tragic writings and video recordings her son left behind, the days and months leading up to the tragic shooting at Columbine High School, where 13 students, as well as the shooters themselves, died - and the searing impact the tragedy had on the victims and their families, on the Columbine community, and on Sue and her family. In large measure, this candid and unflinching narrative was written to explore how Sue missed the signs. How did her beloved golden boy go so utterly off the rails, without her knowledge? Did she miss the indications, subtle or obvious, that Dylan was in trouble? That her child, who had just attended the senior prom and was soon to graduate and go off to college, had a dark, secret life, and an inner rage, that she could not even imagine? Is there something valuable and important that she can share with other mothers and families in terms of recognizing the signs that might get other young adults the help they need to head off a Columbine before it happens?

In an age when the number of mass shootings every year has escalated to unprecedented levels, is there something we as parents and concerned citizens and community members can do to help our children and head off such senseless tragedies? With fresh wounds from Newton and U.C. Santa Barbara, never has the need or yearning for insight and understanding been more urgent. (*Material will be embargoed until publication*)

From music journalist and former *Spin* and *Vibe* editor-in-chief Alan Light comes a biography of incandescent soul icon and activist Nina Simone, drawn from a trove of rare archival materials, including Simone's remarkable private diaries, published alongside Radical Media's much buzzed-about documentary of the same name, which debuted to great acclaim at Sundance in January 2015 and will premiere on Netflix this summer.

What Happened, Miss Simone? explores the many facets of this complicated and gifted woman, excavating her lifelong passion for classical music and painful rejection from that field, along with her soaring success as a soul singer and the stresses put upon her as an African American pushing against the tide of racial discrimination in civil rights battles. Harnessing the singular voice of Miss Simone herself through her private correspondence and incorporating candid reflections from those who knew her best, including her only daughter, Light brings us face to face with a legend, examining the very public persona and very private struggles of one of our greatest artists.

Number One *New York Times* Bestseller

From Mindy Kaling, the author of the mega-bestseller *Is Everyone Hanging Out Without Me?* and creator and star of *The Mindy Project*, comes a highly anticipated second book of hilarious essays, opinions, concerns, and advice.

Since the publication of her much-loved first book, Mindy Kaling's life has changed significantly. Back then, she played Kelly Kapoor, a supporting character on the popular series, *The Office*. Now Mindy is the creator, producer, writer, and star of her own TV show, *The Mindy Project*. She is, as she puts it, "a tiny bit famous," the perks of which include being three assistants, two phones calls and a really good lie away from obtaining Bradley Cooper's e-mail address and having convicts writing her fan mail from prison. She's gone through some other major changes as well--she's watched friends start their own families, and she's grappled with her own balance of work and private life. Mindy turns the anxieties, the glamour, the heartache, and the celebrations of her second coming of age into a laugh-out-loud funny collection of essays that anyone who's ever been at a turning point in their life or career can relate to. And those who've never been at a turning point can skip to the parts where she talks about meeting Bono, encountering Elmo, what kind of snacks they have at a Vogue photo shoot, and what you should carry in your purse when you go to the State Dinner honoring the president of France. April 2016

Rights: World

Based on the wildly popular Instagram account @CrazyJewishMom, Kate Siegel's essay collection about life with the woman who redefined the term "helicopter mom."

There is nothing more special, frustrating, loving, or fraught than a daughter's relationship with her mother. No one else will firmly insist that you are perfect, while simultaneously making you question every career, fashion, or relationship choice you've ever made. Kate Siegel understands this delicate dynamic all too well--her own mother drove her so crazy that she decided to broadcast her hilarious text messages on Instagram. She must have struck a chord because soon hundreds of thousands of people were following their daily correspondences. Now, in *Crazy Jewish Mom*, Kate pays tribute to the woman whose helicopter parenting may make you forgive your own mother's eccentricities. If fans think Kate's mom's texts are insane, they will laugh out loud at the anecdotes her daughter shares in this collection

From embarrassing moments (like Kate's mother's surprise early morning visit after a drunken one-night stand) to outrageous stories (such as the time she moved cross country to be near Kate's college) to hilarious threats ("If you don't call me I'm going to add your boyfriend on Facebook"), *Crazy Jewish Mom* lovingly lampoons the lengths to which our mothers will go to better our lives (even if it feels like they're ruining them in the process).

IN THE NAME OF GUCCI

Patricia Gucci
May 2016
Rights: World

The gripping family drama--and never-before-told love story--surrounding the rise and fall of the late Aldo Gucci, the man who is responsible for making the Italian fashion label the powerhouse it is today, told by his daughter.

Patricia Gucci was born a secret: the love child whose birth could have spelled ruination for her father, Aldo Gucci. It was 1963, and the halcyon days for the "must-have" brand of Hollywood and European royalty. Patricia's mother gave birth in secret in London before she was smuggled back to Vatican City and hidden from the fashion world, the media, and the rest of the Gucci family. Aldo couldn't afford a public scandal, but he could not resist his feelings for Patricia's mother, Bruna, the paramour he first met when she worked for him as a shopgirl in Rome.

In *In the Name of Gucci*, Patricia Gucci charts her parents' untold love story, relying on her own childhood memories as well as an archive of love letters and interviews with her mother. She interweaves her parents' story with that of her own relationship with her father--from a little girl who remained a secret for eighteen months and wasn't publicly acknowledged for her first decade, through her rise to become Gucci's ambassador and Aldo's protégé, to the moment when his three sons, who betrayed him in a famous palace coup, were disinherited and Patricia--once considered the shame of Gucci--was made sole universal heir. It is an epic tale of love and loss, betrayal and loyalty, sweeping among Italy, England, and America throughout the tumultuous years during the rise and fall of the House of Gucci.

APPROVAL JUNKIE

In this hilarious collection of essays, comedian Faith Salie reflects on the absurd hoops she's jumped through in order to win approval. From running in place in a darkened shower in Africa at 4 am to lose weight, to agreeing to an exorcism at the behest of her crazy ex-husband, to eating pig organs with Harrison Ford's son after her producers told her it would "make good TV," Salie has done it all in the opes of achieving positive reinforcement from colleagues, friends, and her aforementioned ex.

With thoughtfulness and sarcasm, Salie reflects on why it is she tries so hard to please others, highlighting a phenomenon that many people—especially women—experience at home and in the work place. Equal parts laugh-out loud funny and poignant, *APPROVAL JUNKIE* is a humorous exploration into why it is that we so desperately try to please others at the expense of our own happiness.

After the Beastie Boys and Vanilla Ice, but before Eminem, there was "Hot Karl," the Jewish kid from the L.A. suburbs who became a rap battling legend--and then almost became a star.

When 12-year old Jensen Karp got his first taste of rapping for crowds at his friend's Bat Mitzvah in 1991, little did he know that he was taking his first step on a crazy journey--one that would end with a failed million-dollar recording and publishing deal with Interscope Records when he was only 19. In **KANYE WEST OWES ME \$300**, Jensen will finally tell the true story of his wild ride as "Hot Karl," the most famous Jewish rapper you've never heard of.

Along the way, we'll see Jensen's struggles with his ska- and rock-listening southern California classmates, who tell him that "rap is for black people"; his record-breaking rap battling streak on popular radio show Roll Call; his rise in the LA club scene; and the double life he leads the whole time. We'll also meet his supportive mother (who takes him to 21+ clubs and announces him at gigs); his rap partner Rickye (an African-American kid who formed the other half of their group, XTra Large); and the performers he recorded with, including soon-to-be household names Kanye West, Redman, Fabolous, Mya, Will.i.am; and then we'll enjoy rollicking stories of sex, drugs, and hip hop from his close brush with fame. Finally, we'll learn why his album never saw the light of day (two words: Slim Shady), his downward spiral after, and what Jensen found instead of rap glory.

This is a quirky, fish-out-of-water memoir about a guy who follows an unlikely passion, despite what everyone else says. It's 8 Mile for the Pitch Perfect crowd.

Rights: World

Trade Paperback Original

The cats of America are under siege, faced with greater dangers than we have ever known. Long passed are the good old days when a cat's biggest worries were a mean dog or getting a bath. Modern cats must contend with liberals, international bankers, Satanists, cybercriminals, ghosts, and countless other threats to both their nine lives and their souls. Never has there been a single book to help you prepare your cat for the myriad challenges they face every day... until now.

THE AMERICAN ASSOCIATION OF PATRIOTS PRESENTS: HOW TO TALK TO YOUR CAT ABOUT GUN SAFETY is a parody guidebook, mixing the lighthearted silliness of Cat Fancy magazine with the paranoid, reactionary rhetoric of a Chick tract. Also includes the important discussion topics: "How to Talk To Your Cat About Evolution" and "How to Talk to Your Cat About Abstinence."

"[I]t's the most weirdly relaxing but empowering thing you'll hear today." --*Buzzfeed*

"Whether or not there's science behind it, all we know is, it's f*cking brilliant." --*Huffington Post*

"Finally, a meditative experience that's perfect for capturing how we all feel at the end of a long day." --*Mashable*

"Jason Headley and his amazing "Fuck That" guided meditation video counteracts that urge to let your mind wander by giving you a very specific goal...if you're like me and meditating basically means washing off haters and getting on with a beautiful life, then this is definitely, 100 percent going to be up your alley." --*Bustle*

"Headley's soothing voice interspersed with profane language is the closest I've ever come to not thinking meditation is a complete waste of time." --*Elite Daily*

Based on the viral video with nearly 5 million views, and had everyone from yogis to workaholics raving, Jason Headley's four-color meditation guide will teach you to breathe in strength and breathe out the bullsh*t. As cathartic as *Go the F*ck to Sleep* was for parents of insomniac toddlers and *Goodnight iPad* was for technology addicts, and with winning mantras such as "acknowledge that all that shit is f*cking bullshit" alongside soothing stock photography, *F*CK THAT* is the serene (and brutally honest) guide to achieving your inner peace.

BORN FOR THIS
How to Find the Work You Were Meant to Do
Chris Guillebeau
May 2016
Rights: World

When Chris Guillebeau toured more than fifty cities on five continents to promote his two previous *New York Times* bestselling books, he noticed that readers all over the world had some version of the same question: "I love all these stories about people finding their dream job or career, but how do I figure out what *my* dream career is?" Finding the answer to that question is what this book is about.

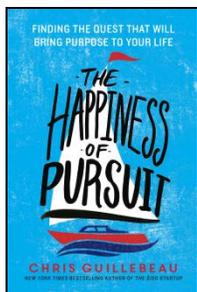

In **BORN FOR THIS**, mega-bestselling author of the *\$100 Start-Up* returns to his fan base with the practical business book his readers have been waiting for, offering readers a step-by-step guide for finding the work that feels so "right," it feels like they were born to do it, whether by launching a side hustle that turns a passion into a profitable business; by finding a dream position within a traditional organization; by fashioning an entirely new self-styled profession around all one's many varied interests, or by "hacking" an existing hum-drum job into work you love.

There are certain people out there who seem to have won the career lottery. To the outside observer, at least, it seems that by some stroke of good luck or divine intervention, the type of work they do best also just happens to be the work they most love to do. But in reality, their good fortune didn't come about by chance. There's an actual *method* for finding the job you love so much it doesn't even feel like work - and getting paid well to do it. This book will show you how.

Chris Guillebeau is the author of the *New York Times*, *Wall Street Journal*, and *USA Today* bestseller *The \$100 Startup* and the *New York Times* bestseller *The Happiness of Pursuit*. His blog receives more than 1 million unique hits a month, and posts have been picked up everywhere from CNN.com to Forbes.com to the *Huffington Post*. His newsletter is read by 75,000 (and growing) subscribers, and he has a highly engaged social media following of 130,000 Twitter followers and over 65,000 Facebook fans. He is the creator and emcee of the annual World Domination Summit, a gathering of 5,000 cultural creatives that attracts such speakers as Susan Cain, A. J. Jacobs, Brené Brown, and Gretchen Rubin.

THE PRODUCTIVITY PROJECT
Managing Your Time, Attention, and Energy Better

Chris Bailey
March 2016
Rights: World

This book is the result of the author's year-long investigation into how to be more productive at work and in every facet of your life. It is a journey that Chris Bailey chronicled in a blog he created called A Year of Productivity.

Chris Bailey has been fascinated with the subject of productivity since he was a teenager. While pursuing his business degree in college, he researched every paper and read every book available on the topic. After graduation, he embarked on a year-long productivity project, interviewing many of the world's foremost gurus in the field, from Charles Duhigg to David Allen, while conducting a series of productivity experiments on himself, from getting by on little sleep, to waking up at 5:30 every morning for a month, from avoiding caffeine and sugar to working 90 hours a week, and monitoring the impact of each experiment on his productivity. He created a blog at the beginning of the project, with exactly zero followers. But as people heard about the project, and read his blog, his traffic grew exponentially, so that by the end of the year he had over 250,000 unique visitors a month.

Among the many counterintuitive insights Chris writes about in the book are removing or shrinking the unimportant; the rule of three; striving for imperfection; scheduling less time for important tasks; the 20 second rule to distract yourself from distractions, and the concept of productive procrastination. He offers over 30 best practices that will help every one of us to accomplish more.

Chris Bailey has grown his blog to over 250,000 unique visitors a month over the past year. His work has received attention from Fox Business, the Huffington Post, New York Magazine, TED, and Lifehacker. He lives in Canada.

ELEVATE YOURSELF

Sallie Krawcheck

December 2016

Rights: World

One of the highest ranked women to ever have worked on Wall Street shows how women can elevate themselves and their careers by embracing the uniquely female traits proven to make women better leaders, more effective team players, and more valuable assets to companies and employers.

Lean in. Demand your place at the table. Sallie Krawcheck has had it with professional advice implying that if women simply leaned in a little farther, played the game a little better, and demanded just a little bit more- in other words, acted a little more like MEN - they could finally break through that glass ceiling and enjoy the success and power they deserve. The problem is that trying to beat a man at a man's game, she says, is a contest rigged to lose. A better strategy is to embrace and invest in the unique traits that make women better positioned to lead and succeed than men: broader diversity of perspective, greater long-term focus and healthier attitude towards risk, higher aptitude for certain types of creativity, better people skills, empathy, and more.

Having been the lone woman at the very highest rungs of male-dominated Wall St, as CFO of CitiGroup and President of Wealth Management at Bank of America Krawcheck knows what it takes to succeed as a woman in a man's world. Which is why, in the new chapter of her life as Chair of one of the largest professional networks for women, she put her research analyst background to work to uncover reams of irrefutable evidence showing that companies perform better when they fully engage women; that companies with women in leadership positions serve clients and customer needs better, have a stronger and more engaged culture, are vastly more innovative, and sustain profits over a longer term.

Drawing on this research as well as on fascinating stories from her years at the highest echolons of the biggest boy's club in the world, Krawcheck will inspire and empower women to elevate both themselves *and* their companies by investing in these assets and strengths. Because according to Krawcheck, women who capitalize on these skills won't need to "lean in" or demand a place at the table; employers will offer that place to them willingly because *it makes good business sense*. Picking up the conversation where *Lean In* left off, this book will show women how to go beyond merely sitting at the table and elevate themselves to the next level by bringing their true female selves to work.

Sallie Krawcheck has been dubbed "The First Lady of Wall Street" and been named one of TIME magazine's "Global Business Influentials," one of Fast Company's "100 Most Creative People of 2014", and has appeared *9 times* on the Fortune list of Most Powerful Women in Business. Her Elevate Network (<https://www.ellevatenetwork.com>) is global and they currently have a presence in the UK, Brazil, Spain, China, Taiwan, India and South Africa.

WELLTH

Lessons on Redefining Happiness, Success, and Health

Jason Wachob

March 2016

Rights: World

Much like *the 4-Hour Workweek* and *Lean In* redefined a successful work life, and *Thrive*, gave us a new metric for measuring a successful life, **WELLTH** steps off from these great shoulders to show readers how to let go of material success as we've known it and cultivate a sense of abundance in all areas of life.

Life Balance, health and wellbeing is the new success for mindful millennials: **WELLTH** is the new measure and metric. The original English word for wealth, was welthe, which combined 'well' and 'health.' This book and its movement will provide a

roadmap for returning to the original meaning.

In thematic essays, MindBodyGreen founder, Jason Wachob, tells his own story of how a heavy-drinking, frat boy who made his first million on Wall Street awakened to his own quest for healing and spiritual connection. A debilitating injury led him to yoga, heartbreak allowed him to find the love of his life, and entrepreneurial failure led him to finally create a business that spoke to his heart as well as his head.

Jason's lessons alternate between moving narratives and lighthearted short-takes, to new tips, interviews, and stories from popular contributors, many of them bestselling authors: such as psychologist Sue Johnson and integrative doctor Lissa Rankin; ultra-marathoner Rich Roll; and yoga phenoms Kathryn Budig and Tara Stiles.

Jason Wachob is the Founder and CEO of mindbodygreen, the leading independent media company dedicated to health and happiness with 15 million monthly unique visitors. He has been featured in The New York Times, Entrepreneur, Fast Company, and Vogue.

THE PRIME

Ancient Secrets to Healing Your Brain and Gut for Spontaneous Weight Loss

Kulreet Chaudhary

January 2016

Rights: World

“Kulreet Chaudhary chronicles a fascinating journey from a reductionist and mechanistic medicine to a truly integrated behavioral approach to health and healing. For anyone who wants to understand the future of well being and medicine this book is a must read.”

--Deepak Chopra

Most diets have you eliminate foods in order to lose weight. **THE PRIME** works the opposite way. You eliminate nothing; the beauty of this plan is that in order to prime your body you don't have to give up any of the foods you love, you just have to make a few *additions* to your diet. Essentially, it's dieting in reverse.

Sound too good to be true? Well it's not. Dr. Kulreet Chaudhary was treating her neurology patients by combining both traditional western approaches with more eastern ayurvedic medicine and discovered a beautiful side effect to the plan she gave her brain patients—they all were shedding excess pounds using it. It was at this point that she realized that weight gain is not about habits, it's about science. It's a result of the body being in a toxic, inflammatory state. Fix that environment by simply rebalancing the system and weight loss becomes almost spontaneous. The bottom line is that if your body is not prepared, if it is not “primed” for weight loss, you will fight a biochemical uphill battle, and the odds of succeeding on any diet are slim.

So how does it work? You start out by taking a quiz in order to evaluate your current level of health and toxicity. Then you begin a 4-stage plan in which you make NO changes to your eating plan, you simply add certain teas, herbs, supplements and juices to your diet over a period of time. These all work to reduce inflammation, detox your system, reduce cravings, and speed weight loss.

The secret is to PRIME your body, prime your gut and prime your brain. The result: more energy, better health, and fast permanent weight loss.

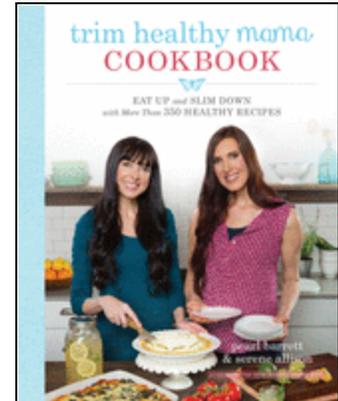

Dr. Kulreet Chaudhary is a neurologist, and the director of Wellspring Health at Scripps Memorial Hospital and a pioneer in the field of integrative medicine. Her research includes groundbreaking work in stem cell therapies for diabetic peripheral neuropathy and drug development for the treatment of ALS. She is the co-founder of Habit Change, and she is committed to bringing national awareness to the need for a paradigm shift in medicine that focuses on patient empowerment and a health-based medical system. Dr. Chaudhary is has appeared numerous times on The Dr. Oz Show, discussing ayurvedic medicine and health. She's a writer for the Dr. Oz website, and was featured in San Diego Magazine's "Top Doctors of San Diego" issue. She has also been featured in magazines such as Women's Health and First for Women.

CONFRONTING THE SOCIOPATH NEXT DOOR

Martha Stout, Ph.D.

October 2016

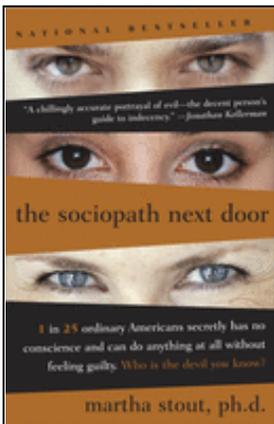

Rights: World

A sequel to Stout's 2005 bestseller *The Sociopath Next Door*, this compilation of stories the author has received from readers examines the personal and global implications of sociopathy, and provides hope for those who are currently dealing with a sociopath.

Bringing together the countless e-mails, phone calls, and letters that she has collected from readers since the publication of *The Sociopath Next Door*, Martha Stout mines these accounts for their inherent fascination and instruction and makes the issue of conscience, or the lack thereof, riveting and relevant to a wide audience. Organized around the intersection of sociopathy and subjects such as destructive narcissism, physicians and other professionals, politicians and the military, nonprosecuted violent crimes, and our neighbors, each chapter contains representative stories from "everyday people," as well as Stout's detailed explanation and commentary. Uniting these disparate categories is Stout's discussion of changing psychological theories of personality and sociopathy and the enduring triumph of conscience over those who operate without empathy or concern for others.

With **CONFRONTING THE SOCIOPATH NEXT DOOR**, Stout aims to help readers navigate their interactions with ruthless people in their personal lives and to inform society's broader interest in character and conceptions of normality during a time of great cultural change.

Martha Stout, Ph.D., a clinical psychologist in private practice, served on the faculty in psychology in the department of psychiatry at Harvard Medical School for twenty-five years. She is also the author of *The Myth of Sanity*. She lives in Massachusetts.

LOVE THAT BOY

What Two Presidents, Eight Road Trips, and My Son Taught Me About a Parent's Expectations

Ron Fournier

April 2016

Rights: World

Ron Fournier, bestselling author, editor of *National Journal*, and former head of the Associated Press's Washington Bureau, writes movingly of the outsize and crushing expectations that come from parents and with parenting today, through the lens of his relationship with his son, Tyler, who has mild Asperger's.

Love That Boy is a multi-layered story about one father's journey to acceptance. Ron Fournier's son has Asperger's syndrome, a form of autism that makes Tyler socially awkward. With a stiff nudge from his wife, Ron traveled the country with Tyler to various presidential sites and visited with former presidents Bill Clinton and George W. Bush, in a series of "guilt" trips that help him appreciate Tyler for who he is, rather than what he wanted him to be. On a broader level, it's a story about every parent's stratospheric expectations for their children--where and why the dreams are made, how these aspirations distort childhood, and what ways they can be properly channeled. When a parent's expectations come from the wrong place and are pressed into service of the wrong goals, kids get hurt. While a parent's love is unconditional, a parent's pride comes with caveats. Ron discovered both late in his job as a father, which he shares in this compelling and honest look at the universal pitfalls of modern parenting.

RON FOURNIER is the senior political columnist and editorial director of *National Journal*. He previously worked at the *Associated Press* for 20 years, most recently as Washington Bureau chief, where he covered the state legislature and presidential politics. Fournier also served as a fellow at the Harvard Institute of Politics, where he cowrote the *New York Times* bestseller *Applebee's America*.

THE OTHER DOOR

What You Didn't Know About The World Hereafter

George Anderson

February 2016

Rights: World

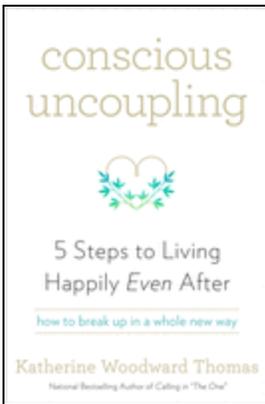

For more than forty years, spiritual medium George Anderson has been able to bridge the world of the hereafter and the earth, through his ability to communicate messages of hope from those who passed on. Since the age of six, Anderson has had a special relationship with what he calls “the souls” who depend on his ability to hear them and bring peace and comfort to their grieving families. The author of two *New York Times* bestsellers including *Lessons from the Light*, is widely considered by those in the medical, scientific and religious fields, to be the world’s greatest living medium.

In this new book, Anderson collects the wisdom of the dearly departed, who now see with perfect clarity, into twelve time-honored principles to help us navigate the most important and critical times in our lives. Lessons include, mind your own business; how to read the body language of heaven; laugh and fail more; to look for the light, follow the moon; and others.

Many of us are spiritually near-sighted. We can only see what's right in front of our eyes. THE OTHER DOOR will provide us with metaphorical corrective lenses. For those who were inspired by the hopeful message of *Proof of Heaven*, George Anderson, the medium who defined this genre in the late 20th century, will show simply and practically that Heaven isn't just an idea but a reality in the here and now.

George Anderson is the first medium in history to appear regularly on a cable television show, the first medium to gain international exposure for his extraordinary ability, and the only living medium to have been invited to Holland by surviving members of the family of Anne Frank, and remains the most scientifically tested medium on Earth. He's the *New York Times* bestselling author of *Walking in the Garden of Souls* and *Lessons from the Light*.
