The Collapsing Empire

The newest novel from Hugo award winning, best-selling author JOHN SCALZI

First book of the 13 title contract with TOR, THE COLLAPSING EMPIRE is set in a new universe in which a mysterious energy force (the Flow) threatens to cut off inhabited worlds, unless a scientist, a starship captain and the Empress of the Interdependency can find a way to stop it.

March 2017, from TOR

Rights Sold: Audible, Czech, France, Germany, Hungary and Korea

Our universe is ruled by physics and faster than light travel is not possible -- until the discovery of The Flow, an extra-dimensional field we can access at certain points in space-time that transport us to other worlds, around other stars.

Humanity flows away from Earth, into space, and in time forgets our home world and creates a new empire, the Interdependency, whose ethos requires that no one human outpost can survive without the others. It's a hedge against interstellar war -- and a system of control for the rulers of the empire.

The Flow is eternal -- but it is not static. Just as a river changes course, The Flow changes as well, cutting off worlds from the rest of humanity. When it's discovered that The Flow is moving, possibly cutting off all human worlds from faster than light travel forever, three individuals -- a scientist, a starship captain and the Empress of the Interdependency -- are in a race against time to discover what, if anything, can be salvaged from an interstellar empire on the brink of collapse.

Giant Squid

From the acclaimed author CANDACE FLEMING and the Caldecott award winning illustrator ERIC ROHMANN comes a beautifully rendered tale of one of the most elusive and captivating creatures on earth

September 2016, from Neal Porter Books

Rights sold to China

2017 Sibert Honor book

The giant squid is one of the most elusive creatures in the world. As large as whales, they hide beyond reach deep within the sea, forcing scientists to piece together their story from those clues they leave behind.

An injured whale's ring-shaped scars indicate an encounter with a giant squid. A piece of beak broken off in the whale's belly; a flash of ink dispersed as a blinding defense to allow the squid to escape-- these fragments of proof were all we had . . . until a giant squid was finally filmed in its natural habitat only two years ago.

In this beautiful and clever nonfiction picture book about the giant squid, Candace Fleming and Eric Rohmann explore, both visually and poetically, this hidden creature's mysterious life.

"The assembling of this creature from its parts to the whole, through both pictures and poetry, will captivate audiences young and old."

Critically acclaimed new biography of Buffalo Bill out from Roaring Brook

With Eric Rohmann, exciting new NF Picture book GIANT SQUID from Neal Porter books

Presenting Buffalo Bill: The Man Who Invented the Wild West

In this skillfully crafted biography of Buffalo Bill, Fleming separates facts from the larger than life tales he presented to captive audiences all over the world. With copious archival illustrations and a handsome design, it makes the great showman come alive for new generations.

Three starred reviews

Fans of Fleming's The Family Romanov (BCCB 9/14) may marvel at the abrupt bounce from Russian Revolution to Wild West, but those who appreciate her authorial craftsmanship will recognize that she makes each of these great stories a window into countless others. --Bulliten for the Center for Childrens Books
