HEX ALLEN

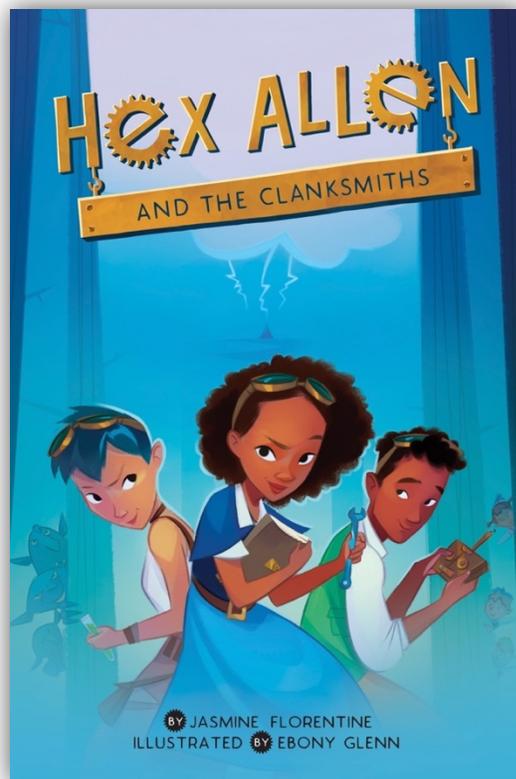

And The Clanksmiths

**Jasmin Florentine, Illustrations by
Ebony Glenn**

Innovation Press, September 2020

STEM meets magic in this new middle grade adventure series from an MIT graduate.

Hex Allen can't do magic—a huge problem when everything from lights to locks is powered by simple spells that everyone (save a few unfortunate “undevelopeds”) can do. After years of feeling useless, Hex sees opportunity to change her future when a once-in-a-century opportunity to journey to the Wishing Wyrm, a legendary dragon that has the ability to grant a single wish, opens up. Unfortunately, Hex isn't the only one after the wish, and every rival wish hunter has magic on their side. Every rival except the Clanksmiths, Cam and Fuse. Like Hex, they can't do magic, but they've learned to build clank, creations made using the mysterious, forgotten arts of science and engineering.

After a fairy fiasco throws Hex and the Clanksmiths together, they agree to cooperate—for the time being. With the Clanksmiths' know-how and Hex's creativity, they outsmart monsters with everything from LEDs to electromagnets to water balloon launchers. But as they race to the Wishing Wyrm, Hex must decide between her friendship with the Clanksmiths and the wish that would give her a normal, magical life.

Pages from Hex's design notebook provide step-by-step project instructions for aspiring Clanksmiths.

KLYDE THE KRAKEN WANTS A FRIEND

Brooke Hartman, Illustrations
by Katy Halford

Innovation Press, October 2020

Klyde the Kraken can only think of one way to make a friend: by hugging them, of course! But hugging every sea creature in sight only leaves him swimming alone. When something he's never seen before appears on the horizon, Klyde is determined to give his hugs one last try... After a rough introduction, some new mateys show him that there are lots of ways to show friendship and teach him an important lesson -- friends should always ask before they hug!

PINK IS FOR BOYS

By Robb Pearlman, art by Eda Kaban

Running Press

Pink is for boys . . . and girls . . . and everyone! This timely and beautiful picture book rethinks and reframes the stereotypical blue/pink gender binary and empowers kids -- and their grown-ups -- to express themselves in every color of the rainbow. Featuring a diverse group of relatable characters, *Pink Is for Boys* invites and encourages girls and boys to enjoy what they love to do, whether it's racing cars and playing baseball, or loving unicorns and dressing up. Vibrant illustrations help children learn and identify the myriad colors that surround them every day, from the orange of a popsicle, to the green of a grassy field, all the way up to the wonder of a multicolored rainbow.

Parents and kids will delight in Robb Pearlman's sweet, simple script, as well as its powerful message: life is not color-coded.

Nilah Magruder is a writer of children's books and comics. From her beginnings in the woods of Maryland she developed an eternal love for three things: nature, books, and animation. She is the author of HOW TO FIND A FOX and M.F.K., coming from Insight Comics in fall 2017. She has also drawn for Disney and DreamWorks, and written for Marvel. When she is not drawing or writing, Nilah is reading fantasy novels, watching movies, rollerskating, and fighting her cat for control of her desk chair.

M.F.K.

A graphic novel

Nilah Magruder

Insight Comics, 2017

A fantastic adventure following the story of Abbie, a deaf girl with a mysterious power, who is traveling across a vast desert to scatter her mother's ashes.

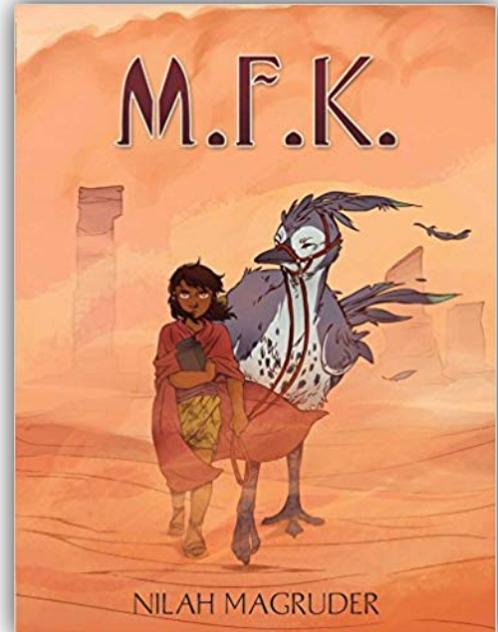

In a world of sleeping gods, a broken government, and a fragile peace held in the hands of the corrupt, one youth must find the strength to stand up against evil and save humanity.

This story is not about that youth.

It's about Abbie, who just wants to get to the mountain range called the Potter's Spine, scatter her mother's ashes, and then live out her life in sweet, blissful solitude.

Unfortunately, everyone she meets wants to whine at her about their woes, tag along on her quest, arrest her for no reason, or blow her to bits.

Journeys are hard on the social recluses of the world.

YOUR NAME IS A SONG

Jamilah Thompkins-Bigelow,

Illustrations by Luisa Uribe

Innovation Press, July 2020

Frustrated by a day full of teachers and classmates mispronouncing her beautiful name, a little girl tells her mother she never wants to come back to school. In response, the girl's mother teaches her about the musicality of African, Asian, Black-American, Latinx, and Middle Eastern names on their lyrical walk home through the city. Empowered by this newfound understanding, the young girl is ready to return the next day to share her knowledge with her class. *Your Name is a Song* is a celebration to remind all of us about the beauty, history, and magic behind names.

THE HOUSE THAT CLEANED ITSELF

The True Story of Frances Gabe's (Mostly) Marvelous Invention

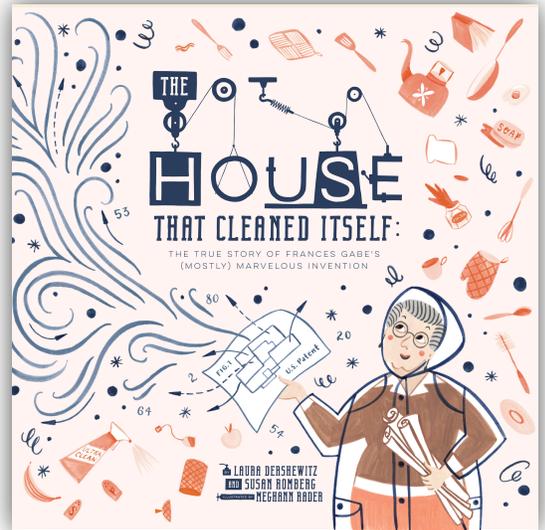

**Laura Dershewitz and Susan Romberg, Illustrations by
Meghann Rader**

Innovation Press, September 2019

Praise for THE HOUSE THAT CLEANED ITSELF:

"...enthusiasm, purpose, and originality shine through in this gently humorous selection, showing that effort is worthwhile, and besides, "maybe one day a young inventor will figure out how to build on Frances's ideas—and go out and do something about it."...This quirky selection shows the lively inner life of a less-than-successful inventor who followed her dreams." —*Kirkus Reviews*

Like most of us, Frances Gabe detested housework—she found cleaning a "nerve-twangling bore". Unlike most of us, she invented a contraption to free herself from this tedious task forever: a self-cleaning house! Gabe's wacky, wonderful home included almost 70 new patented inventions, from a soap-spraying sprinkler in the ceiling to a kitchen cabinet that washed, dried, and stored dishes all in one place. Though Gabe's invention didn't catch on, her determination and clever thinking remind us that we don't have to accept the world as it is; we can improve it using our minds and our own two hands.

Laura Dershewitz would much rather do crosswords—or anything, really—than housework. A former high school English teacher, Laura currently works in educational publishing. She lives in the Chicago area with her husband, daughter, and self-cleaning cats.

Susan Romberg wishes her house would clean itself—especially her kids' rooms. When she's not scraping gum off the floor, Susan writes and edits educational materials. She lives with her family outside of Chicago and sometimes runs into Laura Dershewitz at the grocery store.

Meghann Rader is an illustrator from Vancouver Island, Canada. She has a BFA from the Emily Carr Institute of Art and Design and spent several years showing and selling her original artwork before discovering that illustration was her true calling. Her art has since been featured on greeting cards, stationery and textiles around the world. *The House That Cleaned Itself* is her first picture book.

EVELYN THE ADVENTUROUS ENTOMOLOGIST

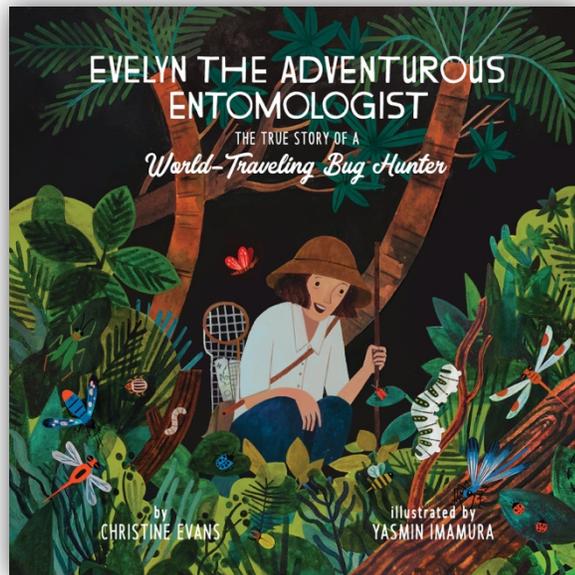

*The True Story of a World-Traveling
Bug Hunter*

**Christine Evans, Illustrations by
Yasmin Imamura**

Innovation Press, September 2019

Praise for EVELYN THE ADVENTUROUS ENTOMOLOGIST:

"Lucy Evelyn Cheesman, who went by her middle name, studied to be a canine nurse and later became the first woman curator of the London Zoo's insect house. Evelyn traveled across the globe to study and gather specimens of insects; this was her passion.... This volume highlights key points of Evelyn's life, and she is always portrayed as a wide-eyed, jaunty, inquisitive person who never let societal norms keep her down. The book's tag line emphasizes the fact that 'she went anyway.' This is a great mantra for readers of this work. VERDICT A valued addition for all STEM collections and one that may especially inspire young women facing similar adversity." —*School Library Journal*

Back in 1881, when Evelyn Cheesman was born, English girls were expected to be clean and dressed in frilly dresses. But Evelyn crawled in dirt and collected glow worms in jars. When girls grew up they were expected to marry and look after children. But Evelyn took charge of the London Zoo insect house, filling it with crawling and fluttering specimens and breathing life back into the dusty exhibits. In the early 1920s, women were expected to stay home, but Evelyn embarked on eight solo expeditions to distant islands. She collected over 70,000 insect specimens, discovered new species, had tangles with sticky spider webs, and tumbled from a cliff. Inspire children to believe in their dreams and blaze their own trail with the story of Evelyn's amazing life!

THE GIRL WITH A MIND FOR MATH

The Story of Raye Montague

Julia Finley Mosca, Illustrations by
Daniel Rieley

Innovation Press, September 2018

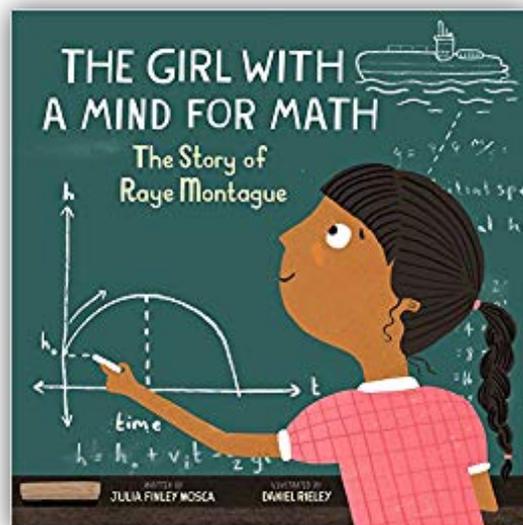

Part of the Amazing Scientists Series

Praise for THE GIRL WITH A MIND FOR MATH:

★ "... a great model for building awareness of racism and solid inspiration for achieving against the odds." — *Kirkus*, **starred review**

"Accompanied by expressive digitized illustrations, this rhyming picture-book biography describes the challenges and triumphs Montague met as an African American woman. . . *Hidden Figures* fans will applaud." — *Booklist*

"A solid addition to the picture book biography shelves and STEAM curricula for young readers." — *School Library Journal*

Meet Raye Montague—the hidden mastermind who made waves in the U.S. Navy!

After touring a German submarine in the early 1940s, young Raye set her sights on becoming an engineer. Little did she know sexism and racial inequality would challenge that dream every step of the way, even keeping her greatest career accomplishment a secret for decades. Through it all, the gifted mathematician persisted—finally gaining her well-deserved title in history: a pioneer who changed the course of ship design forever.

The Girl With a Mind for Math: The Story of Raye Montague is the third book in a riveting educational series about the inspiring lives of amazing scientists. The Story of Dr. Ellen Ochoa
Julia Finley Mosca, Illustrations by Daniel Rieley

Innovation Press, September 2019

Part of the Amazing Scientists Series

Praise for THE ASTRONAUT WITH A SONG FOR THE STARS:

★ "This delightful book combines poetry and whimsical artwork to tell Ochoa's story, the world's first Latina in space, and the hard work and perseverance that got her all the way to the stars. A must purchase for all elementary science and biography collections."
—*School Library Journal*, starred review

Meet Dr. Ellen Ochoa—a determined space pioneer with a stellar symphony of talents.

Growing up in a family of immigrants, Ellen dreamed of becoming a professional flutist, but all of that changed when she discovered engineering in college. Though she was told that field of study wasn't for girls, the bright young scientist refused to give up—ultimately becoming a NASA astronaut who shattered barriers and rocketed to success!

PIGEON MATH

Asia Citro, Illustrated by Richard Watson

Innovation Press, September 2019

Praise for PIGEON MATH:

"Readers can see right on the wire there that if six pigeons fly off, that leaves four—math at its most accessible...Citro's exasperated text works hand in glove with Watson's comical birds to make this counting game a joy rather than a task. The narrative text expresses equations in words, and corresponding number sentences are tucked into the scenes. Good fun for early counters." —*Kirkus Reviews*

Telling a story about pigeons *should* be simple. But what's a narrator to do when the number of feathered friends is constantly changing?

Can our intrepid storyteller use math facts to keep up with the unstable quantities. . . or is this pigeon-centric tale doomed?

THE CURIOUS KID'S SCIENCE BOOK

100+ Creative Hands-On Activities for Ages 4-8

Asia Citro

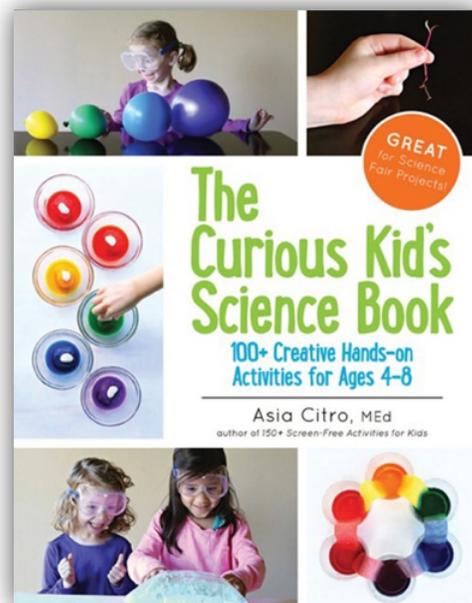

Innovation Press, September 2015

Praise for THE CURIOUS KID'S SCIENCE BOOK:

"*The Curious Kid's Science Book* is not just another book of experiments to fill a rainy day. This book guides parents through the process of inspiring a sense of curiosity in children, and developing a set of skills to help them problem solve, and be scientific thinkers...Full of easy, fun, and meaningful science activities, its real value is its approach to helping parents inspire a sense of exploration and discovery that will benefit their children long after they have grown." —**Bob Pflugfelder, Founder of ScienceBob.com and seen on Jimmy Kimmel Live and Live with Kelly and Michael**

"This is a delightful book that draws on a child's natural curiosity to impart the basics of scientific inquiry...Children will love it and parents will learn some things, too." —**Dr. Henry L. Roediger, Distinguished Professor at Washington University in St. Louis and author of *Make It Stick: The Science of Successful Learning***

"What *The Curious Kid's Science Book* does so well, which so many science books for kids tend to miss, is the celebration of this innate curiosity and penchant for experimentation...This book encourages children...to ask their own questions and think like real scientists!" —**Rachelle Doorleym, Arts Educator at TinkerLab.com and author of *Tinkerlab: A Hands-On Guide for Little Inventors***

What happens if you water plants with juice? Where can you find bacteria in your house? Is slug slime as strong as a glue stick?

In *The Curious Kid's Science Book*, your child will learn to design his or her own science investigations to determine the answers! Children will learn to ask their own scientific questions, discover value in failed experiments, and—most importantly—have a blast with science. The 100+ hands-on activities in the book use household items to playfully teach important science, technology, engineering, and math skills. Each creative activity includes age-appropriate explanations and real life applications of the concepts covered. Adding science to your at-home schedule will make a positive impact on your child's learning. Just one experiment a week will help build children's confidence and excitement about the sciences, boost success in the classroom, and give them the tools to design and execute their own science fair projects.

A LITTLE BIT OF DIRT

55+ Science and Art Activities to Reconnect Children with Nature

Asia Citro

Innovation Press, March 2016

Praise for A LITTLE BIT OF DIRT:

"Helping a child forge deep connections with nature is among the most powerful and lasting gifts that any of us can give...In this delightful book, Asia Citro offers up a smorgasbord of engaging activities, many of them marrying art and science as a catalyst to wonder. With *A Little Bit of Dirt* in your hands, you're well on your way to becoming a star nature mentor for the kids in your life!"

—**Scott D. Sampson, host of the hit PBS KIDS series *Dinosaur Train*, and author of *How to Raise a Wild Child***

"*A Little Bit of Dirt* will guide, inspire, and encourage you to spend more time in nature as a family. This resourceful book contains many exciting project ideas designed to engage children and their parents while providing valuable lessons about nature and its processes. The Extensions ideas in each chapter are a wonderful way to scaffold the learning and increase children's problem solving skills through open-ended questions." —**Erin Kenny, Director of Cedarsong Nature School Author of *Forest Kindergartens: The Cedarsong Way***

"*A Little Bit of Dirt* hits the right mark for giving parents, kids, and families simple and tangible ways for connecting with nature—just beyond the doorstep. Enticing photographs accompany fun, interactive exercises. An inspiring addition to the Nature Activity section of your bookshelf." —**Clare Walker Leslie, author of *The Nature Connection and Keeping a Nature Journal***

Dandelion Bubbles, Rain Drums, Seed Bomb Lollipops and more!

Bursting with creative hands-on outdoor science and art activities, *A Little Bit of Dirt* is full of motivation to get outside and explore. Whether you're investigating the health of your local stream, making beautiful acrylic sunprints with leaves and flowers, running an experiment with your backyard birds, or concocting nature potions, you'll be fostering an important connection with nature. The engaging activities encourage the use of the senses and imagination and are perfect for all ages. Discover more about the natural world waiting just outside your door!

WILDLIFE

Paul Thurlby

Templar/Candlewick, 2013

See the wild lives of animals in this stylish picture book.

Did you know that crocodiles cry while they eat? Or that polar bears turn green if they stay hot for too long? Or that bees do a dance to speak to one another? See wildlife as you've never seen it before with Paul Thurlby's menagerie of curious animals. With unique and humorous artwork that's so stylish you'll want to remove it from the book and hang it on your wall, Paul Thurlby brings to life twenty-three animals in a way that will appeal to readers of all ages.

VROOM VROOM GARBAGE TRUCK

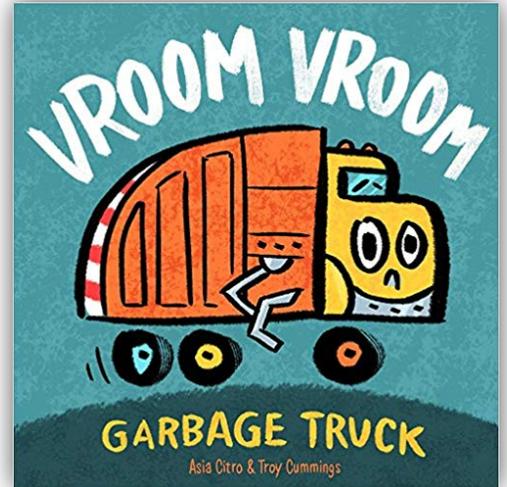

Asia Citro, Illustrated by Troy Cummings

Innovation Press, October 2018

Praise for VROOM VROOM GARBAGE TRUCK:

★ “A 28-page tour de force of a board book that is even better than its title would suggest. Given a toddler's natural fascination for heavy equipment in general and for garbage trucks in particular, this volume could have offered far less and still been a hit. But, surprise, **this cleverly written and lovingly rendered volume should prove an absolute delight for caregivers and tots alike.** This onomatopoeic opus is ideal read-aloud fun, a slice-of-life snapshot of a garbage truck featuring all the signature sounds that alert tykes that the truck is nearby... The illustrations are charming and economical, imbuing the protagonist with huge amounts of personality with surprisingly few (satisfyingly thick) lines.... The smiling truck dumps its load from its aft end in a panel that could have come from a book on potty training and then heads home for the night. The book may be about garbage, but it's **pure gold.**”

—*Kirkus Reviews, starred review*

Whoop WHOOSH whoop WHOOSH click clack BUMP!

Bright and cheerful illustrations come together with a giggle-worthy variety of noises in this rhythmic tale of a garbage truck's day. The illustrations provide young children with a truckload of opportunities to practice counting 0-5 and to work on beginning inference skills. The story rolls to a gentle close, making it a perfect bedtime choice for little truck fans.

Praise for ZOEY AND SASSAFRAS series:

“Concepts are explained concisely and clearly, and a short glossary provides valuable vocabulary building. The slightly larger font makes the text inviting for emerging readers, and the illustrations blend perfectly into the story. Sassafras and the dragon prove to be able sidekicks in the vein of Disney characters...while this book is a natural fit for STEM collections, it deserves a place in all libraries serving young readers.”

—*School Library Journal*

“...the imaginative premise and the incorporation of STEM elements make this an attractive and engaging choice”

—*Booklist*

“Citro gracefully balances her story’s scientific and fantasy elements.”

—*Publishers Weekly*

COMING IN SEPTEMBER: BIPS AND ROSES

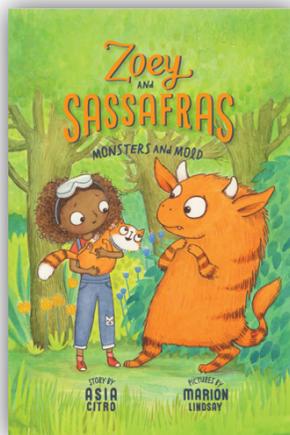

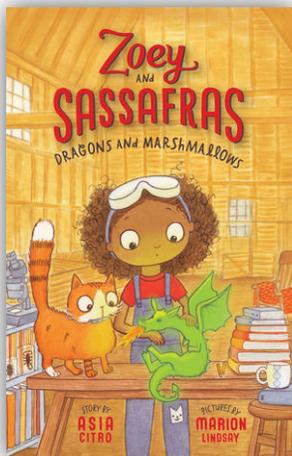

Oh no! There's a big problem with the forest roses . . . magical roses that are very important because they are the first food for newborn griffins. Can Zoey, Pip, and Sassafras use their science know-how to fix the magical roses before the griffin eggs hatch?

With magical animals, science, mystery, and adventure—the brand new series ZOEY AND SASSAFRAS has something for everyone! Easy-to-read language and illustrations on nearly every page make this series perfect for a wide range of ages.

In the first book, Zoey discovers her ability to see magical creatures and learns they’ve been coming to her family’s barn for years whenever they need help. When Zoey’s mom leaves for a conference, she entrusts this special responsibility to Zoey. When a sickly baby dragon appears, Zoey and her cat, Sassafras, use the scientific method (question, hypothesis, steps, findings), along with research on reptiles (a close relative to dragons), to nurse the dragon back to health. These plot-driven early chapters book boasts 16 quick chapters and a glossary of scientific words.

HOW TO SURVIVE

How to Survive as a Firefly

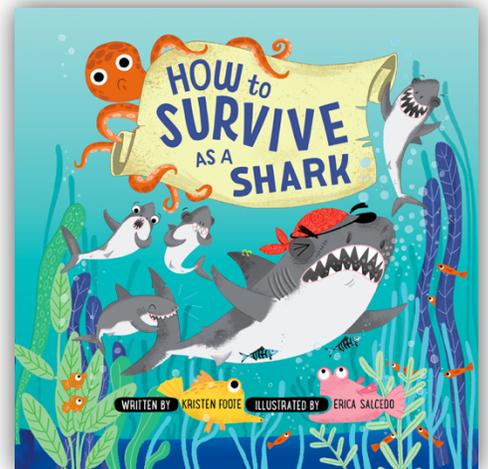

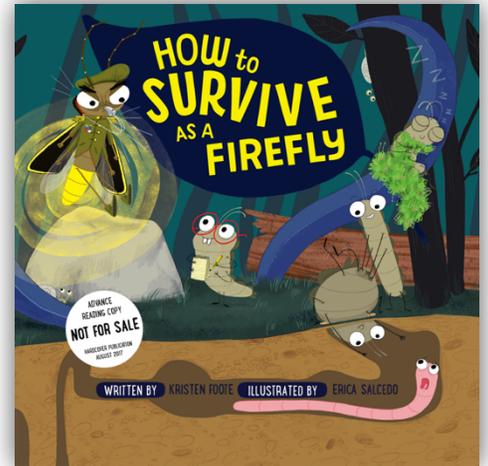

How to Survive as a Shark

Kristen Foote, Illustrations by Erica Salcedo

Innovation Press, August 2017

The HOW TO SURVIVE series provides a unique take on science that will entertain and educate in and out of the classroom. Full of opportunities for extended learning, these books include fun facts hidden throughout the hilarious illustrated story – and after, a glossary of important terms and some real photos. If you've ever wondered how these fascinating beetles grow and glow or how to think and swim like a shark — and like to laugh while you learn — this book is for you!

Listen up, larvae! I've been in the trenches for the last year and a half, and let me tell you, there is danger lurking behind every tree and headlight. With my expertise, you'll learn how to hunt your first meal (snail soup anyone?), what makes your abdomen glow (put down the fire extinguisher!), and how to react when your mate wants to eat you for dinner (who knew fireflies could be cannibals?). Buck up, buttercup – you're in for the flight of your life! If you know what's good for you, you'll stop goofing around and pay attention to HOW TO SURVIVE AS A FIREFLY, or you might never make it to adulthood!

MISS TURIE'S MAGIC CREATURES

Joy Keller, illustrated by Richard Watson

Innovation Press, September 2018

Praise for MISS TURIE'S MAGIC CREATURES:

"The cartoon artwork is colorful and blithe, with the fabled beings possessing as much personality as the eccentric, brown-skinned, big-hair-don't-care Miss Turie. This exploration of ancient mythical creatures as potential pets satisfies with its double twist ending."

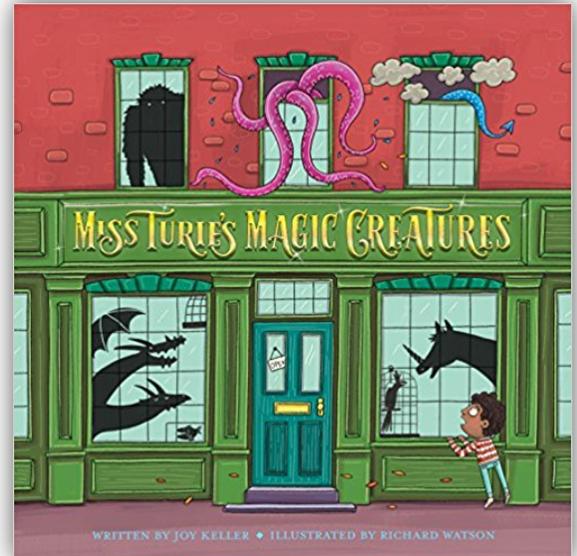

—*Kirkus Reviews*

"Watson's bright, lively illustrations move us right into Keller's delightful story." — *Booklist*

Dragons, Chimeras, and Hydras, oh my!

Come explore Miss Turie's Magic Creatures, the most exotic pet store you've ever seen! Miss Turie guarantees to "have the pet that's right for you," but can she find a match for her toughest customer yet?

Told in an upbeat, fast-paced rhyme, children will laugh as they learn about mythical creatures and contemplate what they might be like as a household pet. Following the story is a catalog of each featured creature with a more detailed history.

Fairy Tale Survival Rule #32: If you find yourself at the mercy of a wicked witch, sing a romantic ballad and wait for your Prince Charming to save the day.

Yeah, no thanks. Dorthea is completely prined out. Sure, being the crown princess of Emerald has its perks—like Glenda Original ball gowns and Hans Christian Louboutin heels. But a forced marriage to the not-so-charming prince Kato is so not what Dorthea had in mind for her enchanted future.

Talk about unhappily ever after.

Trying to fix her prince problem by wishing on a (cursed) star royally backfires, leaving the kingdom in chaos and her parents stuck in some place called "Kansas." Now it's up to Dorthea and her pixed off prince to find the mysterious Wizard of Oz and undo the curse...before it releases the wickedest witch of all and spells *The End* for the world of Story.
