# Riptide Publishing

**Premier LGBTQ Romance, Erotic Romance, and literature publisher featured in USA Today, Romance Times Magazine, and the Dear Author blog.**

**Rights sold in Germany and Japan**

Riptide Publishing is a boutique purveyor of some of the finest LGBTQ fiction, romance, and erotica available today. Created by industry professionals and LGBTQ authors who were hungry for more favorable editing, marketing support, and production values, Riptide Publishing seeks to fill a critical niche in the LGBTQ market: quality books, pristinely packaged, that will satisfy readers' desires for rich, plotty, well edited stories.

## **Romance and Beyond**

Riptide is a romance-focused house, but that's not all we offer. First and foremost, Riptide publishes quality LGBTQ fiction. Erotica? Yes. Romance? Absolutely. But stories with LGBTQ protagonists or a focus on the LGBTQ experience also have a place at Riptide. From high fantasy to historicals to upmarket contemporaries, Riptide's offerings would be at home not just on LGBTQ shelves, but also on genre and popular fiction shelves.

## **Sales Support**

Our marketing team works to build and maintain reader excitement about every release by implementing a custom blend of social media, print/digital promotions, and targeted outreach—and we never stop promoting our backlist titles. Whether launching a debut author or heralding an award-winning bestseller, we work hard to garner wide attention and accolades for all our authors and titles, including reviews in national outlets like USA Today, Romance Times Magazine, and Dear Author, and widespread recognition from juries at the Lambda Awards, EPIC Awards, Rainbow Awards, Goodreads Choice Awards, and more.

As Riptide is an ebook-focused press, our titles never go out of print or fall out of the public eye. Thus, rather than organize our catalog by season, the following pages are arranged by genre. Metadata—including heat levels—are included for each title, along with a URL where you'll find more thorough metadata and keyword information to help you determine the right titles for your markets.
