The world's #1 bestselling author has teamed up with the world's most famous genius to entertain, educate, and inspire a generation of kids

Only kids' book series officially approved by the Albert Einstein Archives

"If you're interested in science, mysteries or courageous heroines, this is a must-read!"—Chelsea Clinton

*"Think of everything that can inspire young girls and put them into one book; this is it! The time is now for a girl to take the helm of the domains of genius, creativity and courage. Max Einstein is that girl and this is the book that can turn our young girls into dreamers and world changers! Max Einstein is everything you hope young girls can dream to be: smart, brave, creative, and able to inspire others to be the same. I love this book for all kids who want to dream big and imagine even bigger!"—Mayim Bialik, #1 New York Times bestselling author of *Girling Up* and *Boying Up**

*"Give this book to the future scientist in your life!"—Jennifer L. Holm, New York Times bestselling author of *The Fourteenth Goldfish* and three-time Newbery honor winner*

*"This book is an inspirational page-turner that won't let you down. Any girl (or boy) can see themselves as Max Einstein, who uses her science smarts and bravery to travel the globe and help people. It is so important that children feel empowered to create solutions to our world's biggest problems. This book celebrates the importance of young people's new ideas and endless imagination. A great addition to any book shelf!"—Rachel Ignotofsky, New York Times bestselling author of *Women in Science* and *The Wondrous Workings of Planet Earth**

"Max's morality, love for humanity, and free spirit make a refreshing counter to the familiar computerlike, elitist genius archetype; evasion scenes bring thrills; problem-solving provides delightful role-modeling. The ending promises a sequel. A fun, positive book with plenty of heart."—**Kirkus Reviews**

"A really enjoyable read--Max is a wonderful character who mixes her adventures with problem solving and science. I would have devoured this book when I was younger!"—**Libby Jackson, author of *Galaxy Girls: 50 Amazing Stories of Women in Space***

Twelve-year-old orphan Max Einstein (like Albert Einstein himself) is not your typical genius. Max hacks the computer system at NYU in order to attend college courses (even though she hates tests), builds homemade inventions to help the homeless, and plays speed chess in the park. Her not-so-normal life is crazy but predictable until...

Max is recruited by a mysterious organization! Their mission: solve some of the world's toughest problems using science. She's helped by a diverse group of young geniuses from around the globe as they invent new ways to power the farthest reaches of the planet. But that's only if the sinister outfit known only as The Corporation doesn't get to her first...

Max Einstein is a heroine for the modern age and will be looked up to by readers for generations to come.

KATT VS. DOGG

January 2019

Zootopia meets Warriors in this all-new illustrated story by James Patterson, about a humanless world where society is defined by one, never-ending conflict: katts vs. doggs.

Oscar is a young pup, a rambunctious kid who's everybody's best friend. He's from a family of blue collar doggs; they drive a pick-up and they love chasing katts.

Molly is a pretty young kitty, a clever girl who's destined for fame and fortune as a katt actress! She comes from a family of alley katts—city slickers every one. Doggs are beneath their notice.

The two young kids get lost while camping in a park, and the only way to survive the night is to work together. Yeah, not going to happen.

UNBELIEVABLY BORING BART

NOT SO NORMAL NORBERT

July 2018

Praise for NOT SO NORMAL NORBERT:
A Barnes & Noble Best Book for Young Readers!

"Readers will chortle at the relentless wordplay, a supporting cast made up almost entirely of caricatured grown-ups and young pranksters, and Norbert's winning mix of glibness and gullibility. Aly's scribbly ink-and-wash line drawings add punchlines as well as comical portraits of the major characters."—*Booklist*

"Buoyed by Aly's boisterous drawings, Norbert's droll wordplay, wisecracking banter, and oddball characters, the comedy reaches farcical heights before careening to an unforeseen conclusion. The authors balance the inanity with real-life, affecting emotion, convincingly depicting Norbert's fright as well as his yearning for his parents."—*Publishers Weekly*

"The humor, adventure, and lively illustrations will make this book enjoyable for reluctant readers."—*Common Sense Media*

Norbert Riddle lives in the United State of Earth, where normal means never standing out. He's been normal his whole life—until he does a funny impression of their dictator...and gets caught!

Now, Norbert's been banished to planet Zorquat 3, where kids who defy the rules roam free. Norbert has been taught his whole life that different is wrong, but everyone at Astronuts is wild and creative.

Norbert wants to go back to awful earth, where at least things are familiar. But he soon realizes that being different could be better—and maybe the crazy farm is exactly where he belongs after all.

* "Patterson and frequent collaborator Grabenstein offers this charming tale of Isaiah, a blue (yes-bright blue!) mouse, and his effort to break his family out of a very bad place. Sutphin provides black-and-white spot illustrations that recall the great mouse protagonists of the mid-20th century. With smart witticisms to launch each quick-paced chapter, **Isaiah is truly a mouse that roars.**"—*Kirkus Reviews, starred review*

* "Children's literature offers a long tradition of clever mice who accomplish amazing feats, and Patterson and Grabenstein's Isaiah seems destined to join them. Here's hoping this unique hero returns soon with further adventures."—*Booklist, starred review*

"Brilliant, fast-paced, and loaded with wisdom, humor, and boldness, *Word of Mouse* is pitch-perfect in every way."—*The Times Herald*

"As Isaiah comes to recognize his own skills, courage, and self-worth, he emboldens others....Isaiah's friendship with a human girl named Hailey (it's implied she has albinism) further drives home the novel's themes of celebrating individuality and belief in oneself. Sutphin's detailed line drawings pair perfectly with this sweet tale."—*Publisher's Weekly*

What makes Isaiah so unique? First, his fur is as blue as the sky--which until recently was something he'd never seen, but had read all about. That's right--Isaiah can read, and write. He can also talk to humans...if any of them are willing to listen! After a dramatic escape from a mysterious laboratory, Isaiah is separated from his "mischief" (which is the word for a mouse family), and has to use his special skills to survive in the dangerous outdoors, and hopefully find his missing family. But in a world of cruel cats, hungry owls, and terrified people, it's hard for a young, lone mouse to make it alone. When he meets an equally unusual and lonely human girl named Hailey, the two soon learn that true friendship can transcend all barriers.

LAUGH OUT LOUD

A New York Times bestseller!
An IndieBound national bestseller!
A Parents' Choice Award (R) Winner!

"Crowd-pleasing... Patterson and Grabenstein are on their way to cornering the middle grade market, and this meta peek behind the curtain should be a hit."—*Booklist*

"Patterson and Grabenstein emphasize that dreams can come true if you take action and never give up. Fans and educators alike will appreciate the many kid lit authors and titles mentioned throughout. A humorous adventure with a positive message."

—*School Library Journal*

Jimmy loves reading so much that he's inspired to start his own book company—as marvelous and fun as Willy Wonka's chocolate factory. Sure, a kid starting his own business seems like pure fantasy. But Jimmy's doubters soon learn that he's not the kind of kid who gives up easily.

Jimmy could also use some good advice and lots of money, but his workaholic parents are too busy to help and the people at the bank laughed him out of = the building. What's a kid to do?

In this hilariously self-aware story filled with self-referential jokes about his own books, James Patterson shows young readers that anything can be achieved if you believe in yourself no matter what!

CUDDLY CRITTERS FOR LITTLE GENIUSES

September 2018

Praise for *CUDDLY CRITTERS FOR LITTLE GENIUSES*:

"Continuing the vocabulary-building they began in *Big Words for Little Geniuses* (2017), **the Pattersons focus here on creatures with names that beg to be sounded out and relished**--from the "silly-looking aye-aye" to the "adorable" dumbo octopus, axolotl, and jerboa. Pan supplies stylized portraits in illustrations that are all bright colors and blobby shapes, as cheery as Matisse paper collages. ...**This parade will give the next generation of Jane Goodalls and Roger Tory Petersons a leg up on some of the wild kingdom's more colorful (and sonorously named) residents.**"—*Kirkus Reviews*
