SYNOPSIS:

Jack Lee is a white lawyer from Freeman County, Virginia, who has never done anything to push back against racism, until he decides to represent Jerome Washington, a Black man charged with brutally killing an elderly and wealthy white couple. Doubting his decision, Lee fears that his legal skills may not be enough to prevail in a case where the odds are already stacked against both him and his client. And he quickly finds himself out of his depth when he realizes that what is at stake is far greater than the outcome of a murder trial.

Desiree DuBose is a Black lawyer from Chicago who has devoted her life to furthering the causes of justice and equality for everyone. She comes to Freeman County and enters a fractious and unwieldy partnership with Lee in a legal battle against the best prosecutor in the Commonwealth. Yet DuBose is also aware that powerful outside forces are at work to blunt the victories achieved by the Civil Rights era.

Lee and DuBose could not be more dissimilar. On their own, neither one can stop the prosecution’s deliberate march towards a guilty verdict and the electric chair. But together, the pair fight for what once seemed impossible: a chance for a fair trial and true justice.

Over a decade in the writing, *A Calamity of Souls* breathes richly imagined and detailed life into a bygone era, taking the reader through a world that will seem both foreign and familiar.

U.S. Release: November 12, 2023

Foreign Sales: UK – Pan Macmillan; Sweden – Bokfabriken; Holland – Bruna; Catalan – Efadós; Bulgaria – Obsidian; Korea – Thenan; Hungary – General Press; Germany – Lubbe

SYNOPSIS:

When CIA operative Jenny Silkwell is murdered in rural Maine, government officials have immediate concerns over national security. Her laptop and phone were full of state secrets that, in the wrong hands, endanger the lives of countless operatives. In need of someone who can solve the murder quickly and retrieve the missing information, the U.S. government knows just the chameleon they can call on.

Ex-Army Ranger Travis Devine spent his time in the military preparing to take on any scenario, followed by his short-lived business career chasing shadows in the deepest halls of power, so his analytical mind makes him particularly well-suited for complex, high-stakes tasks. Taking down the world's largest financial conspiracy proved his value, and in comparison, this case looks straightforward. Except small towns hold secrets and Devine finds himself an outsider again.

Devine must ingratiate himself with locals who have trusted each other their whole lives, and who distrust outsiders just as much. Dak, Jenny's brother, who's working to revitalize the town. Earl, the retired lobsterman who found Jenny's body. And Alex, Jenny's sister with a dark past of her own. As Devine gets to know the residents of Putnam, Maine, answers seem to appear and then transform into more questions. There's a long history of secrets and those who will stop at nothing to keep them from being exposed. Leaving Devine with no idea who he can trust... and who wants him dead.

SYNOPSIS:

Mickey Gibson, single mother and former detective, leads a hectic life similar to that of many moms: juggling the demands of her two small children with the tasks of her job working remotely for ProEye, a global investigation company that hunts down wealthy tax and credit cheats.

When Mickey gets a call from a colleague named Arlene Robinson, she thinks nothing of Arlene's unusual request for her to go inventory the vacant home of an arms dealer who cheated ProEye's clients and fled. That is, until she arrives at the mansion to discover a dead body in a secret room—and that nothing is as it seems.

Not only does the arms dealer not exist but the murder victim turns out to be Harry Lancaster, a man with mob ties who used to be in Witness Protection. What's more, no one named Arlene Robinson works at ProEye.

In the blink of an eye, Gibson has become a prime suspect in a murder investigation—and now her job is also on the line until she proves that she was set up. Before long, Gibson is locked in a battle of wits with a brilliant woman with no name, a hidden past, and unknown motives—whose end game is as mysterious as it is deadly.

SYNOPSIS:

For the past five years, Ryan Richardson has relived that terrible night. The car door ripping open. The crushing blow to the head. The hands yanking him from the vehicle. His girlfriend Ali’s piercing scream as she is taken. With no trace of Ali or the car, a cloud of suspicion hangs over Ryan. But with no proof and a good lawyer, he’s never charged, though that doesn’t matter to the podcasters and internet trolls. Now, Ryan has changed his last name, and entered law school. He’s put his past behind him. Until, on a summer trip abroad to Italy with his law-school classmates, Ryan gets a call from his father: Ali’s car has finally been found, submerged in a lake in his hometown. Inside are two dead men and a cryptic note with five words written on the envelope in Ali’s handwriting: *If something happens to me...* Then, halfway around the world, the unthinkable happens: Ryan sees the man who has haunted his dreams since that night. As Ryan races from the rolling hills of Tuscany, to a rural village in the UK, to the glittering streets of Paris in search of the truth, he has no idea that his salvation may lie with a young sheriff’s deputy in Kansas working her first case, and a mobster in Philadelphia who’s experienced tragedy of his own.

SYNOPSIS:

Once a black ops government assassin known as Orphan X, Evan Smoak left the Program, went deep underground, and reinvented himself as someone who will go anywhere and risk everything to help the truly desperate. Since then, Evan has fought international crime syndicates and drug cartels, faced down the most powerful people in the world and even brought down a president. Now struggling with an unexpected personal crisis, Evan goes back to the very basics of his mission - and this time, the truly desperate is a little girl who wants him to find her missing dog.

Not his usual mission, and not one Evan embraces with enthusiasm, but this unlikely, tiny job quickly explodes into his biggest mission yet, one that finds him battered between twisted AI technocrat billionaires, a mysterious female assassin who seems a mirror of himself, and personal stakes so gut-wrenching he can scarcely make sense of them.

Evan's mission pushes him to his limit - he must find and take down the assassin known only as the Wolf, before she succeeds in killing the people who can identify her - a teenaged daughter of her last target, and Evan himself. Matched skill for skill, instinct for instinct, Evan must outwit an opponent who will literally stop at nothing if he is to survive.

“In the literary equivalent of an archaeological dig, authors Bushman and Givens unearth the details of a sensational murder mystery that gripped the nation in 1908 and inspired the sinister cult favorite, *Twin Peaks*. Now, with *Murder at Teal's Pond*, the real characters emerge in a drama that proves to be every bit as compelling as the TV classic—if not more so.”

The unsolved murder inspired rumors, speculation, ghost stories, and, almost a century later, the phenomenon of *Twin Peaks*. Who killed Hazel Drew? Like Laura Palmer, she was a paradox of personalities—a young, beautiful puzzle with secrets. Perhaps the even trickier question is, Who *was* Hazel Drew?

SYNOPSIS:

In *The Voyage of Sorcerer II*, Venter and science writer David Ewing Duncan tell the remarkable story of these expeditions and of the momentous discoveries that ensued—of plant-like bacteria that get their energy from the sun, proteins that metabolize vast amounts of hydrogen, and microbes whose genes shield them from ultraviolet light. The result was a massive library of millions of unknown genes, thousands of unseen protein families, and new lineages of bacteria that revealed the unimaginable complexity of life on earth. Yet despite this exquisite diversity, Venter encountered sobering reminders of how human activity is disturbing the delicate microbial ecosystem that nurtures life on earth. In the face of unprecedented climate change, Venter and Duncan show how we can harness the microbial genome to develop alternative sources of energy, food, and medicine that might ultimately avert our destruction.
