Ilona Andrews | THIS KINGDOM WILL NOT KILL ME

Epic Fantasy
Tor/Maggie the Undying #1
March 31, 2026

(Translation in France, Germany—NYLA; Other territories—Tor)

"If you thought Ilona Andrews was at the top of her career, you haven't read This Kingdom Will Not Kill Me. Exciting, complex, with indelible characters and a heroine who cannot die: loved it."—Charlaine Harris, #1 New York Times bestselling author

"With intricate plotting, brisk pacing, and snappy dialogue, this self-aware take on the portal fantasy is a delight."—Caitlin Rozakis, New York Times bestselling author of *Dreadful*

"Ilona Andrews casts the kind of spell every fantasy lover craves—an irresistible plunge into another world. I was captivated from the very first line."—Danielle L. Jensen, New York Times bestselling author

Outlander meets *Game of Thrones* in this blockbuster new epic fantasy series from #1 New York Times bestselling author duo Ilona Andrews. For fans of Samantha Shannon, Danielle L. Jensen, Sarah J. Maas, and isekai and portal fantasy, *This Kingdom Will Not Kill Me* is the beginning of the most extraordinary adventure yet from genre powerhouse Andrews.

When Maggie wakes up cold, filthy, and naked in a gutter, she quickly recognizes Kair Toren—the city she knows all too well from the famously unfinished dark fantasy saga she's been obsessively re-reading for years. Her only tools for survival in this brutal world of rival warlords, magic, and mayhem? An encyclopedic knowledge of the plot, setting, and every character's ambition and fate.

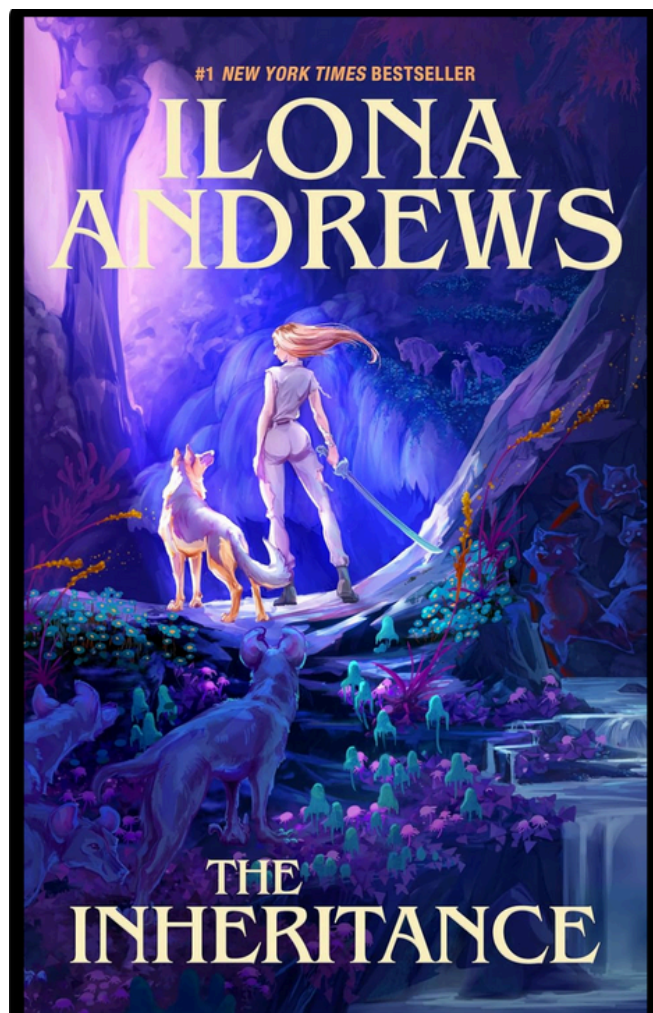

But while Maggie cannot be killed (though many will try), the same can't be said for the living, breathing characters she's coming to love: a former lady's maid, a deadly assassin, a host of outrageous magical creatures, and a dangerously appealing soldier. Drawn into the schemes—and attentions—of dueling princes, dukes, and villains, Maggie must fight not just to stay alive but to change the ending she knows is coming: a cataclysmic war that will destroy the kingdom of Rellias.
